Good Evening,

I am writing in relation to the Transport Seminar Session 3A of the Hearing Sessions of the Maidstone Local Plan.

The Inspector has asked me to advise you that what he is seeking at the Transport Seminar on Thursday is an explanation of the transport evidence presented in a way which would be understood by the Inspector and by observers, and which would include:- .

- An outline of the Transport Evidence which informed the draft Integrated Transport Strategy that was published alongside the Submission Local Plan
- An explanation of what additional transport modelling or other work has been carried out since then and its outcomes
- The conclusions which have been drawn from that work and how they have informed changes to the Integrated Transport Strategy
- Whether Highways England is satisfied with the outcome of the Motorway Junction modelling and its conclusions
- The implications for the Local Plan in relation to the Statement of Common Ground with KCC including the outstanding matters that would need to be addressed by the Local Plan Review in 2022.

Kind regards,

Louise St John Howe
