Capital Strategy

Maidstone Borough Council 2019/20

Introduction

This capital strategy is new for 2019/20, giving a high-level overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of local public services along with an overview of how associated risk is managed and the implications for future financial sustainability. It has been written in an accessible style to enhance members' understanding of these sometimes technical areas.

The capital strategy is an overarching document linking the TM Strategy, Investment Strategy and also includes the Medium Term Financial Strategy (MTFS) which was agreed by Council on 12th December 2018.

Capital Expenditure and Financing

Capital expenditure is where the Council spends money on assets, such as property or vehicles, that will be used for more than one year. In local government this includes spending on assets owned by other bodies, and loans and grants to other bodies enabling them to buy assets. The Council has some limited discretion on what counts as capital expenditure, for example assets costing below £10k are not capitalised and are charged to revenue in year.

➤ For details of the Council's policy on capitalisation, see:

https://www.maidstone.gov.uk/ data/assets/pdf file/0018/190710/Audited-Annual-Accounts-2017.pdf

In 2019/20, the Council is planning capital expenditure of £21.887m. Detailed below is a list of proposed capital expenditure to 2021/22:

Table 1: Prudential Indicator: Estimates of Capital Expenditure in £ millions

	2017/18	2018/19	2019/20	2020/21	2021/22
	actual	forecast	budget	budget	budget
General Fund services	12.623	22.515	21.887	9.894	8.449

The main General Fund capital projects include:

<u>Project</u>	Total Cost (£m)
Disabled Facilities Grant	5.348
Lenworth House	2.228
Brunswick/Union Street Developments	5.282
Housing Delivery Partnership	15.000
Indicative Schemes: A & B	5.800
Mote Park Visitor Centre and Dam Works	4.389
Town Centre Regeneration Works	2.830

Governance: Service managers submit proposals in October to include projects in the Council's capital programme. Bids are collated by Corporate Finance who calculates the financing cost (which can be nil if the project is fully externally financed). Each Committee appraises the proposals based on a comparison of corporate priorities. Policy

& Resources recommends the capital programme which is then presented to Council in March each year.

Prior to any capital commitment being entered into, a detailed report setting out a full project appraisal and detailed financial projections would be considered by the relevant service committee.

All capital expenditure must be financed, either from external sources (government grants and other contributions), the Council's own resources (revenue, reserves and capital receipts) or debt (borrowing, leasing and Private Finance Initiative). The planned financing of the above expenditure is as follows:

	2017/18 actual	2018/19 forecast	2019/20 budget	2020/21 budget	2021/22 budget
External sources	9.815	4.991	6.131	1.080	0.863
Own resources	2.808	17.524	9.650	0	0
Debt	0	0	6.106	8.814	7.586
TOTAL	12.623	22.515	21.887	9.894	8.449

Table 2: Capital financing in £ millions

Debt is only a temporary source of finance, since loans and leases must be repaid, and this is therefore replaced over time by other financing, usually from revenue which is known as minimum revenue provision (MRP). Alternatively, proceeds from selling capital assets (known as capital receipts) may be used to replace debt finance. Planned MRP and use of capital receipts are as follows:

Table 3: Replacement of debt finance in £ millions

	2017/18 actual	2018/19 forecast	2019/20 budget	2020/21 budget	2021/22 budget	
Own resources	0	0	0.419	0.730	0.906	

The Council's full minimum revenue provision statement is included within the TM strategy item no. 75 of the Agenda: http://aluminum:9080/ieListDocuments.aspx?CId=585&MId=2870&Ver=4

The Council's cumulative outstanding amount of debt finance is measured by the capital financing requirement (CFR). This increases with new debt-financed capital expenditure and reduces with MRP and capital receipts used to replace debt. The CFR is expected to increase by £15.756m during 2019/20. Based on the above figures for expenditure and financing, the Council's estimated CFR is as follows:

Table 4: Prudential Indicator: Estimates of Capital Financing Requirement in £ millions

	31.3.2018	31.3.2019	31.3.2020	31.3.2021	31.3.2022
	actual	forecast	budget	budget	budget
TOTAL CFR	3.227	20.751	36.507	45.322	52.908

Asset management: To ensure that capital assets continue to be of long-term use, the Council has an asset management strategy in place.

Asset disposals The Council has no plans to sell any of its assets in the forthcoming future, however certain schemes within the capital programme are being partially funded through sale of some of the completed units to partner organisations. The capital expenditure figures have been shown net of these receipts.

Treasury Management

Treasury management is concerned with keeping sufficient but not excessive cash available to meet the Council's spending needs, while managing the risks involved. Surplus cash is invested until required, while a shortage of cash will be met by borrowing, to avoid excessive credit balances or overdrafts in the bank current account. The Council is typically cash rich in the short-term as revenue income is received before it is spent, but cash poor in the long-term as capital expenditure is incurred before being financed. The revenue cash surpluses are offset against capital cash shortfalls to reduce overall borrowing.

Borrowing strategy: The Council's main objectives when borrowing are to achieve a low but certain cost of finance while retaining flexibility should plans change in future. These objectives are often conflicting, and the Council therefore seeks to strike a balance between cheap short-term loans (currently available at around 0.75%) and long-term fixed rate loans where the future cost is known but higher (currently 2.0 to 3.0%).

Projected levels of the Council's total outstanding debt (which comprises borrowing, PFI liabilities, leases are shown below, compared with the capital financing requirement (see above).

Table 6: Prudential Indicator: Gross Debt and the Capital Financing Requirement in £ millions

	31.3.2018 actual	31.3.2019 forecast	31.3.2020 budget	31.3.2021 budget	31.3.2022 budget
Debt (incl. PFI & leases)	0	0	17.954	26.249	33.318
Capital Financing Requirement	3.227	20.751	36.507	45.322	52.908

Statutory guidance is that debt should remain below the capital financing requirement, except in the short-term. As can be seen from table 6, the Council expects to comply with this in the medium term.

Liability benchmark: To compare the Council's actual borrowing against an alternative strategy, a liability benchmark has been calculated showing the lowest risk level of borrowing. This assumes that cash and investment balances will be fully utilised to fund the capital programme. This benchmark is currently £11m and is forecast to fall to £2m over the next three years.

Table 7. Bollowing and the Elability Benefithark in 2 millions						
	31.3.2018 actual	31.3.2019 forecast	31.3.2020 budget	31.3.2021 budget	31.3.2022 budget	
Outstanding borrowing	0	0	14.907	23.722	31.308	
Liability benchmark	0	3.986	14.907	23.722	31.308	

Table 7: Borrowing and the Liability Benchmark in £ millions

Affordable borrowing limit: The Council is legally obliged to set an affordable borrowing limit (also termed the authorised limit for external debt) each year. In line with statutory guidance, a lower "operational boundary" is also set as a warning level should debt approach the limit.

Table 7: Prudential Indicators: Authorised limit and operational boundary for external debt in £m

	2018/19 limit	2019/20 limit	2020/21 limit	2021/22 limit
Authorised limit – borrowing	10.418	24.002	42.795	50.898
Authorised limit – PFI and leases	3.568	3.047	2.527	2.010
Authorised limit – total external debt	13.986	36.507	45.322	52.908
Operational boundary – borrowing	3.986	14.907	23.722	31.308
Operational boundary – PFI and leases	3.568	3.047	2.527	2.010
Operational boundary – total external debt	7.554	17.954	26.249	33.318

> Further details on borrowing are in pages 8 to 11 of the treasury management strategy

http://aluminum:9080/ieListDocuments.aspx?CId=585&MId=2870&Ver=4

Investment strategy: Treasury investments arise from receiving cash before it is paid out again. Investments made for service reasons or for pure financial gain are not generally considered to be part of treasury management.

The Council's policy on treasury investments is to prioritise security and liquidity over yield, that is to focus on minimising risk rather than maximising returns. Cash that is likely to be spent in the short term is invested securely, for example with the government, other local authorities or selected high-quality banks, to minimise the risk of loss. Money that will be held for longer terms is invested more widely, including in bonds, shares and property, to balance the risk of loss against the risk of receiving returns below inflation. Both short-term and longer-term investments may be held in pooled funds, where an external fund manager makes decisions on which particular investments to buy and the Council may request its money back at short notice.

	31.3.2018 actual (m)	31.3.2019 forecast (m)	31.3.2020 budget (m)	31.3.2021 budget (m)	31.3.2022 budget (m)
Short-term investments	17.4	8.5	0	0	0
Longer-term investments	0	2.0	2.0	2.0	2.0
TOTAL	17.4	10.5	2.0	2.0	2.0

Table 8: Treasury management investments in £millions

> Further details on treasury investments are in pages 12 to 19 of the treasury management strategy

http://aluminum:9080/ieListDocuments.aspx?CId=585&MId=2870&Ver=4

Governance: Decisions on treasury management investment and borrowing are made daily and are therefore delegated to the Director of Finance and Business Improvement and staff, who must act in line with the treasury management strategy approved by council. Quarterly reports on treasury management activity are included within the budget monitoring reports which are presented to the council Policy & Resources Committee with the half yearly and annual reviews which are scrutinised by Audit, Governance and Standards Committee then recommending to Full council. The Audit, Governance and Standards Committee is responsible for scrutinising treasury management decisions.

Investments for Service Purposes

The Council can make investments to assist local public services, including making loans to local service providers, local small businesses to promote economic growth, Charities and the Council's subsidiaries that provide services. In light of the public service objective, the Council is willing to take more risk than with treasury investments, however it still plans for such investments to provide value for money to the tax payer.

Governance: Decisions on service investments are made by the relevant service manager in consultation with the Director of Finance and Business Improvement and relevant committee (where appropriate), must meet the criteria and limits laid down in the investment strategy. Most loans are capital expenditure and purchases will therefore also be approved as part of the capital programme.

Further details on service investments are in pages 2 to 3 of the investment strategy.

Commercial Activities

The acquisition of commercial investment properties is intended to support the local economy and regeneration objectives so does not qualify as Commercial Investment.

Revenue Budget Implications

Although capital expenditure is not charged directly to the revenue budget, interest payable on loans and MRP are charged to revenue, offset by any investment income receivable. The net annual charge is known as financing costs; this is compared to the net revenue stream i.e. the amount funded from Council Tax, business rates and general government grants.

Table 9: Prudential Indicator: Proportion of financing costs to net revenue stream

	2017/18 actual	2018/19 forecast	2019/20 budget	2020/21 budget	2021/22 budget
Financing costs (£m)	(0.145)	(0.180)	0.148	0.324	0.476
Proportion of net revenue stream	(0.8)%	(0.9)%	0.7%	1.8%	2.6%

Sustainability: Due to the very long-term nature of capital expenditure and financing, the revenue budget implications of expenditure incurred in the next few years will extend beyond 5 years into the future. The Director of Finance and Business Improvement is satisfied that the proposed capital programme is prudent, affordable and sustainable.

Knowledge and Skills

The Council employs professionally qualified and experienced staff in senior positions with responsibility for making capital expenditure, borrowing and investment decisions. For example, the Director of Finance and Business improvement is a qualified accountant with 12 years' experience in local government, the Corporate Property Manager and the team are experienced in Property Management and The Council pays for junior staff to study towards relevant professional qualifications including CIPFA, ACT (treasury), and ACCA.

The Council currently employs Link Asset Services as treasury management advisers, a number of property consultants including Harrisons Property Surveyors Limited and Sibley Pares Limited. This approach is more cost effective than employing such staff directly, and ensures that the Council has access to knowledge and skills commensurate with its risk appetite.
