E paul.dossett@uk.gt.com

This paper provides the Audit, Governance and Standards Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes a summary of emerging national issues and developments that may be relevant to you as a local authority.

Members of the Audit, Governance and Standards Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either Paul or Tina.

Completion of the Financial Statements Audit 2019/20.

Financial Statements Audit

We issued an unqualified audit opinion on the Council's financial statements on 30th November 2020.

We included an emphasis of matter within our audit opinion which referred to the disclosures that management had made regarding the material uncertainties for the valuations of property, plant and equipment and pension fund directly held property and pooled property funds. Our audit opinion was not modified as a result of this emphasis.

Value for Money opinion

We issued an unqualified value for money opinion for the year ended 31 March 2020 on 30th November 2020.

Certification of the Audit

We certified completion of the audit for 2019/20.

Other areas

Certification of claims and returns

Housing Benefit Subsidy claim - in accordance with procedures agreed with the Department for Work and Pensions (DWP). The Council have completed the initial testing and we are in the process of reviewing a sample of cases to verify accuracy.

The DWP has moved the reporting deadline back to 31 January 2021. We will report our findings to the Audit, Governance and Standards Committee in our Certification Letter in March 2021.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your officers have been invited to our Financial Reporting Workshop in February, which will help to ensure that members of your Finance Team are up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Fees

Over the past six months the current Covid-19 pandemic has had a significant impact on all of our lives, both at work and at home. The impact of Covid-19 on the audit of the financial statements for 2019/20 has been multifaceted. This includes:

- Revisiting planning - we have needed to revisit our planning and refresh risk assessments, materiality and testing levels. This has resulted in the identification of a significant risk at the financial statements level in respect of Covid-19 necessitating the issuing of an addendum to our original audit plan as well as additional work on areas such as going concern and disclosures in accordance with IAS1 particularly in respect to material uncertainties.
- Management's assumptions and estimates - there is increased uncertainty over many estimates including investment valuations. We included an Emphasis of Matter in the Audit Report in respect of the material uncertainty on property values.
- Remote working – the most significant impact in terms of delivery is the move to remote working. We, as other auditors, have experienced delays and inefficiencies as a result of remote working.. These are understandable and arise from the availability of the relevant information. In many instances the delays are caused by our inability to sit with an officer to discuss a query or working paper. Gaining an understanding via Teams or phone is more time-consuming. **This amounts to £6,950. Additional fees to cover the impact of Covid 19 have been levied on all of our audits. These are subject to PSAA approval.**

Audit deliverables

2019/20 Deliverables

	Planned Date	Status
Audit Findings Report	November 2020	November 2020
The Audit Findings Report was reported to the November Audit, Governance and Standards Committee and a final version is being presented to the January Audit, Governance and Standards Committee		Final January 2021
Annual Audit Letter	January 2021	completed
This letter communicates the key issues arising from our work.		

2020/21 Deliverables

Audit Plan	March 2021	Not yet due
Interim findings	TBC 2021	Not yet due
Audit opinion	September 2021	Not yet due
Audit Annual Report	September 2021	Not yet due

Sector update

Councils continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

New NAO Code of Audit Practice for 2020-21

The NAO issued a new Code of Audit Practice which came into force on 1 April 2020 and applies to audits of 2020-21. The key change is an extension to the framework for VfM work. The NAO has prepared Auditor Guidance Note (AGN 03), which sets out detailed guidance on what VfM work needs to be performed. Public consultation on this ended 2 September.

The new approach to VfM re-focuses the work of local auditors to:

- promote more timely reporting of significant issues to local bodies;
- provide more meaningful and more accessible annual reporting on VfM arrangements issues in key areas;
- provide a sharper focus on reporting in the key areas of financial sustainability, governance, and improving economy, efficiency and effectiveness; and
- provide clearer recommendations to help local bodies improve their arrangements.

Under the previous Code, auditors had only to undertake work on VfM where there was a potential significant risk and reporting was by exception. Whereas against the new Code, auditors are required to undertake work to provide a commentary against three criteria set by the NAO – governance; financial sustainability and improving economy, efficiency and effectiveness.

A new Auditor's Annual Report presented at the same time as the audit opinion is the forum for reporting the outcome of the auditor's work on Value for Money. It is required to contain:

The '**Commentary on arrangements**' will include a summary under each of the three specified reporting criteria and compared to how the results of VfM work were reported in previous years, the commentary will allow auditors to better reflect local context and also to draw attention to emerging or developing issues which may not represent significant weaknesses, but which may nevertheless require attention from the body itself. The commentary will not simply be a description of the arrangements in place, but an evaluation of those arrangements.

Recommendations: Where an auditor concludes there is a significant weakness in a body's arrangements, they report this to the body and support it with a recommendation for improvement.

Progress in implementing recommendations: Where an auditor has reported significant weaknesses in arrangements in the previous year, the auditor should follow up recommendations issued previously and include their view as to whether the recommendations have been implemented satisfactorily

Use of additional powers: Where an auditor uses additional powers, such as making statutory recommendations or issuing a public interest report, this needs to be reported in the auditor's annual report.

Opinion on the financial statements: The auditor's annual report also needs to summarise the results of the auditor's work on the financial statements. This is not a replacement for the AFR, or a verbatim repeat of it – it is simply a summary of what the opinion audit found

The new approach is more complex, more involved and will subsequently increase the cost of audit. We will be discussing this with the Chief Operating Officer shortly.

NAO

**Value for Money
update for Audit, Governance
and Standards Committee on
new arrangements 2020-21**

How have the NAO changed value for money work ?

How is value for money work changing ?

VFM arrangements commentary and recommendations

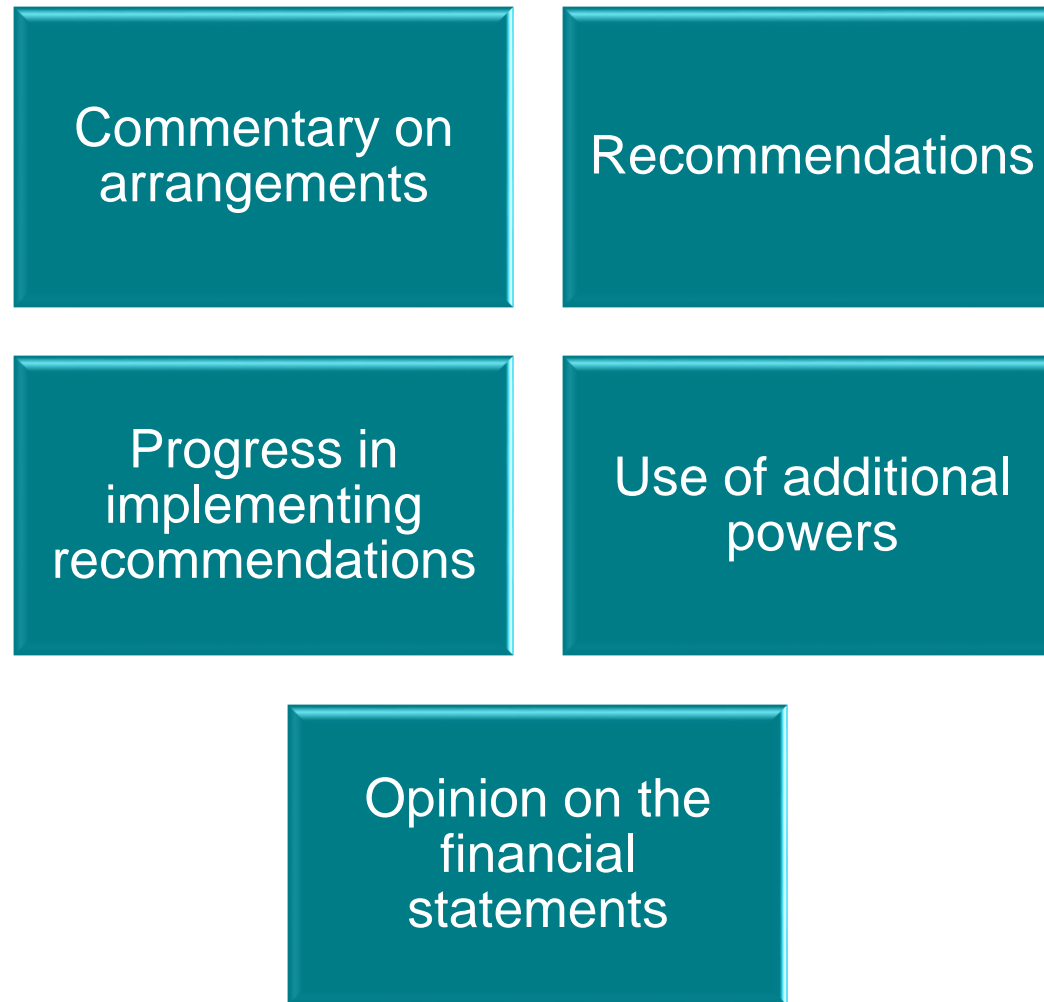

The three criteria have changed...

A key change in reporting...

So what is in an Auditor's Annual Report ?

Recommendations

Practical implications

The new approach is more complex, more involved and will lead to better quality working achieving more impact. Before beginning work, we will discuss with you:

- Timing
- Resourcing

Revised auditing standard: Auditing Accounting Estimates and Related Disclosures

In the period December 2018 to January 2020 the Financial Reporting Council issued a number of updated International Auditing Standards (ISAs (UK)) which are effective for audits of financial statements for periods beginning on or after 15 December 2019. ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit, Governance and Standards Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Additional information that will be required for our March 2021 audits

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021 in all areas summarised above for all material accounting estimates that are included in the financial statements.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings
- Depreciation
- Year end provisions and accruals
- Credit loss and impairment allowances
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. investments and asset valuations. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 (Revised December 2018) we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

- Where there is material estimation uncertainty, we would expect the financial statement disclosures to disclose:
- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;

- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

How can you help

As part of our planning risk assessment procedures we routinely make a number of enquiries of management and those charged with governance, which include general enquiries, fraud risk assessment questions, going concern considerations etc. Responses to these enquires are completed by management and confirmed by those charged with governance at an Audit, Governance and Standards Committee meeting. For our 2020/21 audit we will be making additional enquires on your accounting estimates in a similar way (which will cover the areas highlighted above).

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:
