

Kent Authorities' Purchasing Guide

Introduction – the Contract Standing Orders (CSOs) and this Purchasing Guide

- The CSOs are the starting point for good purchasing practice. They contain the core obligations for a robust purchasing framework. As they form part of the Council's Constitution, they can only be changed by resolution of full Council, unless specific powers to make amendments have been delegated to an Officer or other body. They are made under the Council's powers under section 135 of the Local Government Act 1972.
- This Purchasing Guide provides practical guidance on how the CSOs apply to purchasing decisions and processes. It explains some of the more technical and legal issues involved in procurement and provides practical working examples.
- You must use this Purchasing Guide when purchasing on behalf of the Council. You must also follow the CSOs and the other documents referred to in CSO 4.
- Purchasing can involve complex technical provisions and legal rules. Breach of those technical provisions, the legal rules, the CSOs or this Purchasing Guide can have serious consequences for the Council and for you. If you are in doubt then you must seek assistance. If you have any queries about the CSOs, this Purchasing Guide or the other documents used in or related to the Council's purchasing, then please contact the Procurement unit.
- The structure of this Purchasing Guide follows the structure of the CSOs. In this Purchasing Guide, the CSOs are set out in shaded boxes, followed by commentary and guidance on those CSOs.
- This Purchasing Guide is a "living" document which will be reviewed periodically by officers. If you have comments or suggestions for improvements please contact the Procurement Manager

THE PURCHASING GUIDE

1 Introduction – Purpose of the Contract Standing Orders

- 1.1 Purchasing decisions and processes are important because the money involved is public money. The purpose of these Contract Standing Orders is to provide a structure within which purchasing decisions are made and implemented and which ensure that the Council:
 - 1.1.1 Furthers its corporate objectives
 - 1.1.2 Uses its resources efficiently
 - 1.1.3 Purchases appropriate quality goods, services and works
 - 1.1.4 Safeguards its reputation from any implication of dishonesty or corruption.
- 1.2 Purchasing by the Council, from planning to delivery, shall incorporate (where appropriate) principles of sustainability, efficiency, whole life costings and cost savings.
- 1.3 These Contract Standing Orders are made in accordance with the requirements of Section 135 of the Local Government Act 1972.
- 1.4 These Contract Standing Orders do not provide guidelines on what is the best way to purchase works, supplies (goods) and services. They set out minimum requirements to be followed. Further information and guidelines are set out in the Council's Purchasing Guide

CSO 1.1

- 1 Good and effective purchasing must be embedded in the day to day practices of the Council. The key objectives of purchasing, outlined in CSO 1.1 and CSO 1.2 must be taken into account from the initial planning and conceptual stages of the purchasing process. The purchasing process is not limited to the stage when you seek a quote or tender.
- 2 Failure to consider these key issues can impact on both the quote or tender process, and also the long term delivery of the works, supplies or services which are being purchased.

Example: You need to think carefully about the quality and specification for the goods you wish to purchase. Failure to incorporate your requirements into the contract may result in substandard or poor quality goods being provided to the Council. The Council is unlikely to be able to do very much about this, if its own requirements have not been clearly specified in the tender and contract documents.

Conversely, if the Council has clearly specified the quality of the goods required and when delivered they are not up to standard, then the Council will be able to ensure that standards can be improved or, potentially, cancel the contract arrangements.

CSO 1.2

- 3 You must take into account the principles of sustainability, efficiency, whole life costings and cost savings, during the purchasing process.
- 4 **"Sustainability"**: The UK Government's sustainable development strategy sets out four key priority areas for action:
- Sustainable consumption and production
 - Climate change and energy
 - Protecting natural resources
 - Creating sustainable communities and a fairer world

Sustainable procurement is a process whereby organisations meet their needs for goods, services, works and utilities in a way that achieves value for money on a whole life basis in terms of generating benefits not only to the organisation, but also to society and the economy, whilst minimising damage to the environment.

- 5 **"Efficiency"**: The Council must continuously improve all its services. This means that the Council must purchase the most appropriate best value works, supplies or services and deliver continuous improvement throughout each contract. For contracts which relate to more than just a one off purchase, the Council will need to exercise ongoing monitoring and review of the contract to ensure
- a. customer satisfaction,
 - b. continued high quality delivery,
 - c. compliance with environmental and equality standards, and
 - d. the opportunity to identify service improvements and cost savings.

This could be reflected in an efficiency and improvement clause in the contract. See further comments on standard clauses at CSO 3.

- 6 **"Whole life costing"**: requires you to ensure that the whole potential cost of the contract is taken into account.

Example: In letting an equipment supply contract, as well as the initial capital spend, you need to consider the length of the asset's useful life, the cost of ongoing maintenance, replacement of parts and servicing and consumables, so that there is true cost to the Council of the purchase being made. To buy a copier which initially costs £2,500 may be more expensive than one that initially costs £4,500, if the cheap copier uses expensive paper and toner, needs servicing every three months and is scrapped after 5 years, whilst the more expensive one uses cheaper paper and toner, needs servicing only once every 2 years and lasts for 10 years.

- 7 **"Cost savings"**: Each contract or purchase must set out the agreed price to be paid by the Council to the contractor. The Council cannot then unilaterally reduce the price but conditions relating to long term service improvement and efficiencies can be incorporated into the contract documents.

There may be ways of structuring a purchasing exercise to save costs. This might be through a joint purchasing exercise with other councils, or by re examining the way a service is provided.

- 8 Effective contract monitoring is essential to achieve continuous improvement, especially during the implementation of long-term contracts, particularly if the contractor is under a duty to work with the Council to seek improvements in delivery and efficiency. It is usually sensible to provide for annual reviews in the contract, which can then be tied in with, for example, payments to reflect good performance and provisions allowing for inflation increases.

Example: The Council needs to demonstrate to central government each year, its compliance with the Local Government Equalities Standard. An obligation in the contract to ensure ongoing compliance with Equalities legislation is of little value if the Council fails to review and record the contractor's compliance regularly.

- 9 If the Council knows that a contractor is not complying with contract requirements, then it needs to address the matter promptly. If the Council has regularly raised and recorded issues with a contractor, made formal requests for improvements, which are not delivered, then there may be a clear basis for either an action for damages or termination.

CSO 1.3

- 10 Section 135 of the Local Government Act 1972 obliges councils to make standing orders for contracts for the supply of goods and materials and the execution of works entered into by the Council or on behalf of the Council. The Act requires that the standing orders must include provisions for securing competition for such contracts and must also regulate the way in which tenders are invited. The Act allows for exemptions from the obligation to tender below a specified threshold and where exemptions identified in the standing orders apply.

CSO 1.4

- 11 This Purchasing Guide is the guide referred to in CSO 1.4. It provides broader guidelines on the best way to purchase works, supplies (goods) and services.

2 General Principles – Application and Compliance with Contract Standing Orders

- 2.1 These Contract Standing Orders apply to the purchase by or on behalf of the Council of works, supplies (goods) and services.
- 2.2 These Contract Standing Orders apply to all contracts including all purchase orders, concessions and contractual arrangements entered into by or on behalf of the Council, except for the specific types of contracts and purchasing methods which are listed in 2.3.
- 2.3 These Contract Standing Orders do not apply to:
 - 2.3.1 Employment contracts
 - 2.3.2 Contracts relating solely to the purchase or sale of interests in land
 - 2.3.3 Contracts for retention of legal counsel and the appointment of expert witnesses in legal proceedings
 - 2.3.4. Service level agreements setting out the conditions which the Council applies to its funding of particular voluntary sector bodies.

CS0 2.1

- 1 The CSOs apply to all purchasing activities by, undertaken by or on behalf of the Council. The words “works”, “supplies” and “services” are the words used in the EU Rules to define different types of contracts. Put simply, “works” cover construction, refurbishment and other building related works. “Supplies” are all types of goods - from paperclips to photocopiers and vehicles, and “services” cover the full range of services provided or purchased by the Council in its day to day activities. Some contracts can be hybrid arrangements covering works, supplies or services. If this is the case and you are not sure how to define a particular arrangement, please take advice from the Procurement unit

CS0 2.2

- 2 **Words and terms used to describe types of arrangements which are often contracts:** Do not be misled by the label for any particular arrangement. The CSOs apply to all purchasing and contracts except where specific exemptions apply. A lot of purchasing is by way of formal contracts. However, contracts can exist even when the word “contract” is not used. So, for example, **"agreements"**, **"purchase orders"**, **"terms and conditions"** and equipment or vehicle **"leases"** are nearly always a type of purchasing and so are contracts which are subject to the CSOs. (Leases for land or property are not covered by these CSOs – see comment on CSO 2.3.2). Sometimes a formal agreement may be preceded by a "memorandum of understanding" or "heads of terms", but take care that such preliminary documents do not themselves amount to a binding contract.
- 3 Contracts can also be created by words or actions and so it is possible to have a contract without having anything in writing.

Example: Be careful to ensure that a contract is not implied as a result of conversations which you have with potential contractors or exchanges of correspondence (including e-mails) which may be intended to be mere exchanges of views but which could amount to a formal contract.

If, for example, you invite quotes and receive a quote in response, you may create a legal contract if you then ring the contractor and say that you are happy with that quote. A contractor could then rely on the conversation to either oblige the Council to enter into a formal written contract or to sue the Council in the event that the Council decides not to go ahead on that basis, despite those assurances.

- 4 **Concessions** are a specific type of contractual arrangement under which, rather than paying the contractor to deliver a work or service, the Council will grant the contractor the right to exploit an opportunity and receive some or all of its income from third parties. A good example is the operation of catering or leisure facilities where some or all of a contractor's income can come direct from paying members of the public.
- 5 The terms "**service level agreements**" and "**grant**" are particularly problematic and their usage is inconsistent. Do not assume that a service level agreement or grant is not a contract. The term "service level agreement" can be used to describe a specification or technical requirements type document which sets out the level of service required under a contract. It is also sometimes used to describe what is, in practice, a legally binding contract. The same issues apply to arrangements classified as grants.
- 6 **Partnering arrangements:** There have been considerable moves over the last few years toward the concept of working "in partnership" with other public, voluntary and private sector organisations. When the Council is entering into a partnering type arrangement, it may need to follow a tendering process resulting in a formal contract. PLEASE TAKE ADVICE.
- 7 Some "partnering" arrangements – particularly those with other public bodies such as the NHS – are genuine partnering (as opposed to a legal partnership (see below)) involving, for example, the pooling of resources to deliver services. Other arrangements are labelled as partnering arrangements but are in reality, formal contractual arrangements. A common example is the "partnering" approach used for construction contracts.
- 8 A formal legal "Partnership" has a specific legal meaning. A legal partnership will be caught by statute and other rules. It is possible to create a legal partnership without intending to do so and this can have significant consequences, as partners usually share both profits and losses arising from the partnership. Great care must be taken when using this term, to ensure that a legal partnership is not implied. Your legal team will have a standard clause to deal with this.
- 9 **Summary:** Wherever an arrangement means that works, supplies and/or services will be provided to the Council, or on behalf of the Council, in return for some sort of "payment" (which could be a monetary payment but could also be something else of value to the recipient), then you need to consider whether or not this is a type of contract and purchasing process which is subject to the CSOs and other Regulatory Provisions listed in CSO4.
- 10 The best approach to adopt is to assume that the CSOs will apply to all of the Council's purchasing activities with only very limited exceptions. You must take advice from the Procurement unit if you are uncertain about whether or not the CSOs apply.

CSO 2.3

- 11 There are some specified types of contract to which the CSOs do not apply. These are listed in CSO2.3. These are excluded, because it generally does not make practical or legal sense to require a full tendering process for these types of contract. However, these arrangements are subject to other specific requirements.
- 12 **CSO 2.3.1 Employment contracts:** employment opportunities are usually advertised and people are appointed to their posts as a result of a formal appointment process. Employees enter into individual employment contracts with the Council.
- 13 However, contracts involving the purchase of services from individuals – such as consultancy or advisory service contracts – are often not “employment contracts” for the purposes of this exception and are likely to be subject to the CSOs. Similarly, contracts with employment agencies for the provision of temporary staff will be caught by the CSOs.
- 14 **CSO 2.3.2 Contracts relating solely to the transfer of interests in land** (including existing buildings) are generally not caught. This includes the purchase or disposal of land by way of a freehold or lease. This will apply to most of the Council’s day to day conveyancing and land transactions.
- 15 Take care over development type agreements which may, for example, involve a combination of a land transfer plus a developer providing a building for the Council. These can be caught by the EU Rules as they can be classified as “works” contracts because of the building element. This is a complex area of European law. You must seek advice from the Procurement unit.
- 16 **CSO 2.3.3 Contracts for the retention of legal counsel and the appointment of expert witnesses in legal proceedings:** The legal team is responsible for agreeing fees with and appointing legal counsel (barristers) to work on legal issues and appropriate Heads of Service are responsible for the appointment of expert witnesses.
- 17 **CSO 2.3.4 Service level agreements setting out the conditions which the Council applies to its funding of particular voluntary sector bodies:** in some limited circumstances, funding arrangements for voluntary sector bodies may not be caught by the CSOs. An example of the type of arrangement which may fall within this exception, is low value funding to a voluntary group in order to ensure the continued provision of a critical local service.
- 18 Take care because some funding arrangements may, in reality, be more like a contract than a simple funding arrangement. The Council must ensure that it obtains appropriate value in respect of all funding and that it is not contravening State Aid, EU Rules or EC Treaty Principles. You need to look carefully at each funding arrangement and consider whether it could be delivered better as a result of a competitive process. A Service Level Agreement is unlikely to be an appropriate method for large scale and/or long term funding.

3 General Principles Applying to All Contracts

- 3.1 All purchases however small shall be in writing.
- 3.2 Standard contract clauses shall be used in all contracts. The standard contract clauses are attached as an appendix to these orders.
- 3.3 As a minimum, all contracts shall include clauses which set out:
 - 3.3.1 The works, supplies (goods), services, material, matters or things to be carried out or supplied
 - 3.3.2 The time within which the contract is to be performed
 - 3.3.3 Quality requirements and/or standards which must be met
 - 3.3.4 Requirements on the contractor to hold and maintain appropriate insurance
 - 3.3.5 What happens in the event that the contractor fails to comply with its contractual obligations (in whole or in part)
 - 3.3.6 Requirements on the contractor to comply with all relevant equalities and health and safety legislation
 - 3.3.7 That the Council shall be entitled to cancel the contract and recover losses in the event that the contractor does anything improper to influence the Council to give the contractor any contract or commits an offence under the Prevention of Corruption Acts 1889 to 1916 or s117(2) Local Government Act 1972.
- 3.4 Written contracts shall not include non commercial terms unless these are necessary to achieve best value for the Council. In this context, “non commercial” means requirements unrelated to the actual performance of the contract
- 3.5 All contracts shall include relevant specifications and/or briefs/technical requirements which are prepared taking into account the need for effectiveness of delivery, quality, sustainability and efficiency (as appropriate) and the information set out in the Council’s Purchasing Guide
- 3.6 All contracts of a value of £5,000 or more or which involve a substantial risk to the Council must be subject to a written risk assessment, which should be kept on the contract file.

CSO 3.1

- 1 Because the Council may need to enforce the terms of an agreement, it is important that the terms of the agreement are clearly recorded, and confirmed by the other party. Accordingly, any contract will be in writing. “In writing” does not have to be a formal or lengthy paper contract. It can be a paper contract, signed by both sides, but it can equally be in the form of ordinary correspondence, including emails or faxes rather than hard paper

letters, in which one side sets out its requirements and the other side agrees to comply with them.

- 2 A contract in writing can also be created by using the Council's own standard terms and conditions, plus an order form, electronic purchasing where pre-terms and conditions have been pre-agreed or, for example, where a Purchasing Scheme is used so that the terms and conditions have been agreed centrally, (see commentary on CSO 15).
- 3 Please note that if the Council does not make it clear that its own terms and conditions, order forms or contracts apply, then the contractor's terms and conditions may apply to the purchase. This may not be in the Council's best interests.

Example: The Responsible Officer emails a contractor asking them to quote to provide some new software. The software contractor sends its quote back to the Council by post. On the back of the quote are the contractor's own legal terms and conditions. The Responsible Officer accepts the quote, over the telephone and confirms the order by e-mail. A contract has been created in writing. Unless both of the emails from the Responsible Officer made it clear that the Council's terms and conditions apply and the contractor has seen those terms and conditions, it is likely that the contractor's own terms and conditions will apply to that transaction.

CSO 3.2

- 4 To protect the Council's interests, this CSO requires you to use certain standard contract clauses in all contracts over the specified value. This means that risks are allocated appropriately and that the Council has a remedy in the event of breach of contract.

CSO 3.3

- 5 This CSO does not set out the actual clauses to be used, but points to the issues which you need to cover in contracts above the specified value (if a value is specified, or if no value is specified, to all contracts). You need to consider the value and complexity of the contract and any potential risks associated with that contract to decide what form of contract and level of detail is appropriate.
- 6 **CSO 3.3.1:** This requires you to describe clearly in the contract what is being purchased. The description may cross refer to a more detailed description of the works, supplies or services which could, for example, be attached to the contract by way of an appendix or schedule. If you do not clearly specify what is being purchased, then there is a lot of potential for dispute with contractors about the extent of their obligations to the Council.
- 7 **CSO 3.3.2:** Be clear about when and for how long the contract is to apply. For example, with the delivery of equipment it would be important to ensure that there is a clause stating when equipment will be delivered and installed. For longer term contracts, you need to be clear about when the obligation to deliver starts and ends.
- 8 **CSO 3.3.3:** Be clear about what level of quality and standards are required. Think about minimum standards required. This should involve discussion with those who are responsible for the purchase.
- 9 **CSO 3.3.4:** All contractors should hold some form of insurance to cover their business liabilities. There are different types of insurance which will apply to different types of purchase. Ensure that there is a clause in the contract stating what type and level of insurance is required. This will link directly to what is being purchased and also the size and nature of the contract. For a very high value contract, higher levels of insurance may

be required than for smaller purchases. However, think about the impact of the failure of the contract. A small purchase could have a large impact on the Council and so insurance requirements may well be higher. If you are uncertain about insurance requirements, then please discuss this with the Procurement unit or the Insurance team within the finance section.

10 The Responsible Officer should ask for evidence of cover before the start of the contract and during the term of the contract.

Example: The Council may require a contractor providing a relatively low value contract for the provision of cooked meals direct to users to have higher levels of third party liability insurance than a contractor providing pencils to the Council. This is because the consequences of a faulty product being supplied are likely to be far more significant in a contract involving meals than pencils.

- 11 **CSO 3.3.5:** The contract must explain what happens if there is a failure to meet the Council's requirements under the contract. It is common to have provisions for both a partial failure and a total failure. The implications will vary according to what is being purchased and the nature of those failures. A contract may, for example, just require the contractor to remedy a failure within a specific time period. If the contractor remedies the failure to the Council's satisfaction, then that may be the only consequence. Failure to remedy to the Council's satisfaction may result in more serious consequences, such as the right to terminate the contract partially or wholly. Think about the practical consequences of failure and the Council's interest in terms of failures and their consequences. In the context of building contracts it is quite common to retain a percentage of the total contract value pending final sign off and approval of the works so that the Council has some real leverage in the event that the work is not delivered to the required standard.
- 12 **CSO 3.3.6:** Contractors will be subject to their own statutory obligations to comply with both equalities and health & safety legislation. However, the Council may require additional compliance in order to reflect its own statutory obligations, or to pick up specific standards and compliance linked to the subject matter of the contract.
- 13 **CSO 3.3.7:** This is a standard provision entitling the Council to cancel a contract and to recover losses in the event that the contractor is guilty of an offence, such as bribery or corruption or tries to improperly influence a decision.

CSO 3.4

- 14 Ensure that the terms used in the contract are relevant to that contract. Do not include provisions in contracts, which do not relate to the subject matter of the contract. Check the proposed terms and ensure that they are relevant. For example, detailed clauses for circumstances where equipment goes wrong may not be relevant to a contract for training services.

CSO 3.5

- 15 Good quality specifications and/or technical requirements are critical for letting and monitoring a successful contract. A contract which only includes legal terms but does not, clearly describe, what standards are required is of little practical value. Identify these requirements at the start of the purchasing process, so that the standards are clearly described when quotations or tenders are invited for inclusion in the contract and ongoing contract monitoring arrangements.

- 16 Specifications and/or technical requirements need to be "proportionate". This means that for a very simple purchase, the specification could be very simple. For more complex purchases, the specification may go into quite a lot of detail. For purchases which are technically demanding, you must address detailed technical and standards compliance. These documents need to be prepared jointly with officers having specialist knowledge of the purchase who need to be involved as early as possible in the purchasing process.

CSO 3.6

- 17 Even low value contracts may have a significant impact if they go wrong, so it is important to adopt a risk analysis type approach. This is set out in the risk matrix included as "Attachment 1" at the end of this Purchasing Guide.

Example 1: A low value contract for photography services may look initially like a simple arrangement which does not require detailed contract provisions. However, in some circumstances, such a contract may need to include provisions covering the confidentiality of individuals, protection of children and copyright issues and so a fuller form of contract may be appropriate.

Example 2. A contract to set up one stage of a nationally important racing competition event in a town or city may ostensibly be of low financial value, but the difficulties arising from partnership working, reputation risks and even adverse weather, could result in major losses for the Council. The need for careful risk management in the drafting of the contract is correspondingly important.

4 Regulatory Context

- 4.1 All purchasing shall be conducted in accordance with Regulatory Provisions which are:
- 4.1.1 All relevant statutory provisions
 - 4.1.2 The relevant EU Rules and EC Treaty Principles, which are defined in the Council's Purchasing Guide
 - 4.1.3 The Council's Constitution including these Contract Standing Orders, the Council's Financial Procedure Rules and Scheme of Delegation
 - 4.1.4 The Council's Purchasing Guide and other policies and procedures of the Council as appropriate.
- 4.2 In the event of conflict between the above, the EU Rules will take precedence, followed by UK legislation, then the Council's Constitution, the Council's Purchasing Guide and guidelines, policies and procedures.

CSO 4.1

- 1 This CSO requires purchasing to be conducted in accordance with "Regulatory Provisions". Regulatory provisions are defined in 4.1.1 to 4.1.4 and cover EU and UK law, as well as the Council's own constitution and this Purchasing Guide. This means that when undertaking purchasing, you need to take into account a wide range of both legally binding provisions and also internal rules and guidance.
- 2 **CSO 4.1.1:** The statutory provisions applying to purchasing will vary according to the purchase being made. Key provisions include Section 17 of the Local Government Act 1988 which prohibits the application of non commercial considerations to the tender process and in particular the selection of contractors, except insofar as is necessary to secure the achievement of best value. In that context, non commercial considerations include, for example, the contractor's terms and conditions of employment, business activities and interests of contractors in the Government's defence or foreign policy and the conduct of contractors in industrial disputes. Please ask for advice on non commercial considerations for any tendered contract
- 3 **CSO 4.1.2:** The term "EU Rules" in the context of these CSOs means the Public Contracts Regulations 2006 (Statutory Instrument 2006/5) (also referred to as the "Regulations") which implement European Directives 2004/18/EC and 89/665/EEC. The EU Rules will affect you if you are making purchases which exceed the EU Threshold Values set out in CSO 7.4. You **MUST** seek assistance from the Procurement unit in these cases.

In certain, limited, circumstances the Council may be classified as acting in the capacity of a "utility". This could occur where the Council is delivering or running certain types of water, energy, transport or telecoms services. Practical examples may include the running of an airport or operation of a tramway or the production of drinking water or, in certain circumstances, undertaking land drainage works. In this case the Utilities Contracts Regulations 2006 (Statutory Instrument 2006/6) which implements European Directives 2004/17/EC and 92/13/EC apply. These CSOs do not cover the rules applying to activities

caught by the Utilities Regulations. If you are uncertain about the application of these provisions you must take advice from Procurement unit.

- 4 The reference to “EC Treaty Principles” mean those principles derived from the EC Treaty 1957 which apply to all purchasing by the Council. These EC Treaty Principles require the Council to ensure that it acts in a way which is open and transparent, ensures equal treatment of all contractors, and permits appropriate competition.

Example: When you invite quotes or tenders, do not act in a way that favours local contractors over contractors from elsewhere in the European Union. All contractors must have the same opportunities and receive the same treatment.

- 5 **The EU Rules do not apply to all contracts, but they do apply to most contracts above the specified EU Threshold financial values which are set out in CSO 7.5. For purchases caught by the EU Rules or where you are uncertain whether or not the EU Rules apply you must take advice from the Procurement unit.**
- 6 **CSO 4.1.3:** You need to understand how the Council’s Constitution, Financial Regulations and Scheme(s) of Delegation, as they apply to purchasing, interact with these CSOs.

CSO 4.2

- 7 If there is a conflict between the different sets of Regulatory Provisions, then there is a "hierarchy" application. EU Rules will always take precedence. Where UK legislation seems to conflict with EU Rules their interpretation will apply rather than the UK legislation. If you are uncertain about these issues then you must contact the Procurement unit.

5 Responsibilities of Directors and Responsible Officers

5.1 Each Director shall:

- 5.1.1 be responsible for the purchasing undertaken by his/her Directorate.
- 5.1.2 be accountable to the Executive for the performance of his/her duties in relation to purchasing
- 5.1.3 comply with the Council's decision making processes including, where appropriate, implementing and operating a Scheme of Delegation
- 5.1.4 appoint a Responsible Officer in writing who shall be an authorised signatory
- 5.1.5 take immediate action in the event of breach of these Contract Standing Orders.

5.2 A Responsible Officer is an officer with responsibility for conducting purchasing processes for the purchase of works, supplies (goods) or services on behalf of the Council

5.3 A Responsible Officer's duties in respect of purchasing are to ensure:

- 5.3.1 compliance with all Regulatory Provisions and integrity of the tender process
- 5.3.2 compliance with the relevant statutory provisions and the Council's requirements relating to declarations of interest affecting any purchasing process
- 5.3.3 that there is an appropriate analysis of the requirement, timescales, procedure and documentation to be used
- 5.3.4 the purchasing process, from planning to delivery incorporates (where appropriate) principles of sustainability, efficiency, whole life costings and cost savings
- 5.3.5 compliance with the Council's decision making processes
- 5.3.6 ensuring that all contracts of a value of £15,000 or more are included on the Council's Contract Register
- 5.3.7 making sure that that proper records of all contract award procedure, waivers/exemptions and extensions are maintained, with separate files for each purchase of a value of £15,000 or more
- 5.3.8 that value for money is achieved

5.3.9 that adequate and appropriate security (such as a bond or guarantee) is taken to protect the Council in the event of non-performance.

5.4 In considering how best to procure works, supplies and services Directors and/or Responsible Officers (as appropriate in the context) shall take into account wider contractual delivery opportunities and purchasing methods including the use of Purchasing Schemes and e-procurement/purchasing methods, and the availability of local authority charging and trading powers under the Local Government Act 2003.

5.5 It is a disciplinary offence to fail to comply with these Contract Standing Orders and the Council's Purchasing Guide. All employees have a duty to report breaches of Contract Standing Orders to the Head of Internal Audit and Risk Strategy.

5.6 Any officer or Member who suspects any misconduct or corruption in relation to the purchase by or on behalf of the Council of works, supplies (goods) and services must immediately report that suspicion to the Council's Monitoring Officer and Head of Internal Audit and Risk Strategy.

CSO 5

1 The Director has overall responsibility for the purchasing processes undertaken by, or on behalf of his or her Directorate. The Director is responsible for ensuring compliance as set out in CSO 5.1.

2 **CSO 5.1.3:** Refer to the Councils Constitution for details.

3 **CSO 5.1.5:** Upon becoming aware of a breach of regulatory provisions (including the contract standing orders) a Director must take immediate action. A failure to take immediate action may result in a purchasing process continuing in breach of the Regulatory Provisions, explained in CSO 4. This could have unwelcome practical, financial and legal consequences for the Council.

If an officer or Member becomes aware of a breach, or a suspected breach, of the Council's contract standing orders then he or she must report the matter immediately to the Head of Internal Audit and Risk Strategy to ensure that appropriate steps are taken to address the breach or potential breach.

CSO 5.2

4 The Responsible Officer is appointed by the Director. The Responsible Officer's duties are set out in **CSO 5.3**.

CSO 5.3

5 **CSO 5.3.1:** The Regulatory Provisions are explained at CSO 4. In addition to the specific Regulatory Provisions, Directors must ensure that the tender process is conducted in a way which complies with all the requirements of the Contract Standing Orders and in a manner which is open and transparent and ensures equality of treatment and opportunity to all participants.

6 **CSO 5.3.2:** Due attention must be made to the requirements in respect of declarations of interests, affecting both Members and officers in respect of purchasing. In the case of Members, the requirements of the Code of Conduct would include:

- Registering any contracts which they or companies with which they are associated have with the Council for goods, services or works;
- Declaring any personal interest which they may have in any contract which is under consideration, and to withdraw from consideration of any contract in which they have a prejudicial interest;
- Not using their position as a Member improperly to seek to confer an advantage or disadvantage on any person or to compromise or seek to compromise the impartiality of any officer;
- Only authorising the use of Council resources, to act in accordance with the Council's requirements;
- Preventing Members from corruptly soliciting or accepting any gift or advantage for doing or forbearing to do anything as a Member.

In the case of officers, such requirements would include:

- To disclose to the Council any interest which they may have in any contract which the Council has entered or proposes to enter into under Section 117 of the Local Government Act 1972;
- To act in the best interests of the Council and not to participate in any matter in which they have a private interest in accordance with their contracts of employment;
- Preventing officers from corruptly soliciting or accepting any gift or advantage for doing or forbearing to do anything as an officer of the Council.

7 **CSO 5.3.3:** The purchasing process must be planned properly so that timescales are reasonable, all those involved know and understand what procedure and documents are to be used and the levels of resource and timescales are understood. A failure to analyse and provide for these requirements can result in poor procurement practice and a failure to deliver purchasing to meet the Council's requirements.

Example: Purchases may require approval at a Directorate, Executive or full Council level. This approval may require the provision of documentation in advance of that consideration and so this needs to be factored into the overall procurement timescale and project planning.

8 **CSO 5.3.4:** See comment on CSO 1.2.

9 **CSO 5.3.5:** The Council's decision making processes must be factored into the overall planning.

10 **CSO 5.3.6:** The Council's contracts register should be updated to include all details of tendered contracts ensuring that the name of the contractor, the delivery period, the price and a brief description of the supply service or works is provided.

The contracts register ensures that the Council has clear records of contracts awarded and that no particular contractor has been unfairly treated or favoured. Some councils are now using on line tendering systems, which include contract register systems and information which is then made publicly available. This helps to demonstrate transparency in purchasing processes.

- 11 **CSO 5.3.7:** Proper records of contracts and award procedures must be maintained. This does not necessarily require a very detailed explanation, but it does require records to be maintained in writing and to be easily retrievable should they need to be consulted. The Council's records/data retention schedule sets out how long each record should be kept.
- 12 **CSO 5.3.8:** Value for money is a balance of quality, price and delivery and does not mean that the contract will necessarily be awarded on the basis of the lowest cost to the Council. Directors and Responsible Officers should note the requirement for "active" contract monitoring. It is only by active and ongoing participation in contract monitoring that the Council can ensure that contracts continue to represent good value and meet the Council's requirements. This can help drive through efficiency savings and improvements, and ensure that poor contract performance can be addressed promptly.
- 13 **CSO 5.3.9:** Contract provisions should include arrangements for mechanisms to be employed in the event of poor performance (see commentary at CSO 3.3).
- 14 In addition to contract provisions, it may also be appropriate (depending upon the nature of the purchase), to include requirements such as provision of a parent company guarantee or some form of bond. The appropriate levels of "security" documents will depend upon the purchase being made and also the financial standing of the contractor. Advice should be sought from the Council's Procurement unit legal team or financial team when considering additional forms of security, such as bonds or guarantees.

Example: if the Council is concerned about the ability of a contractor to honour its obligations in the event of poor performance and that contractor is a company falling within a larger company structure, then it may be appropriate to seek a form of parent company guarantee from the parent company. Similarly, in large services or works contracts, it is quite common to have some form of bond which provides a direct payment to the Council, in the event of failure to deliver to the contract standard.

CSO 5.4

- 15 Directors and Responsible Officers (as appropriate) need to think carefully about the best way in which purchases are made. For example, in some circumstances it may make sense to use one of the Purchasing Schemes, identified in CSO 15. It may also prove better value for money to use e-Procurement or other e-purchasing methods.
- 16 Carry out sufficient analysis and understanding of the market to enable the Council to best select the potential contractors. For certain types of contract, (for example high value and/or long term), it may be appropriate to undertake market research and pre-purchasing enquiries to establish who may be best placed to deliver the requirements and which route will best meet the Council's needs. Market sounding or pre purchasing enquiries must not result in the Council favouring a particular supplier in breach of the EU Rules or EC Treaty Principles.

CSO 5.5

- 17 It may be a disciplinary offence for any officer to fail to comply with the CSOs and the Council's Purchasing Guide. All employees have a personal obligation under the CSOs to report breaches of Contract Standing Orders. Failure to report a breach may also amount to a disciplinary offence. Equally, any failure by a Member to comply with the CSOs and the Council's Purchasing Guide may amount to a breach of the Code of Conduct for Members.

CSO 5.6

18. Failure by an officer or a Member to report any suspected breach of the CSOs, or any suspected corruption can itself amount to a disciplinary offence for an officer, or a failure to comply with the Code of Conduct for Members.

6 Scheme/s of Delegation

- 6.1 Council purchasing may only be undertaken by officers with the appropriate delegated authority to carry out such tasks as set out in the Council's Scheme of Delegation. Officers with delegated authority may only delegate to other officers who have the appropriate skills and knowledge for the task and such delegation shall be recorded in writing by the officer delegating the task and notified to the relevant Head of Service.
- 6.2 Officers shall, where appropriate, be informed by their Head of Service of the extent of any delegated authority and applicable financial thresholds.

CSO 6.1

- 1 Officers who make purchases may only carry out tasks that are properly delegated to them. If you act in good faith and within the powers delegated to you, any consequential liability accrues to the Council as your employer and not to you as an individual. But if you act outside the powers that have been delegated to you, you act as an individual, not as agent for the Council, and the Council is not necessarily bound by your actions. You can then incur personal liability to the Council and to the contractor for any loss which they may suffer.
- 2 The Council's Scheme of Delegation(s) is set out in the Council's Constitution.

7 Financial Thresholds and Procedures

- 7.1 The table below sets out the general rules applying to the choice of purchasing procedure for contracts at the stated threshold values.
- 7.2 There is a general presumption in favour of competition. Wherever possible, contract opportunities should be advertised by way of a public notice. The Council must consider the potential effect of a contract on interstate trade (at a European level). If a contract may be of interest to contractors from other member states then this may result in a need to advertise in a manner which ensures that potential contractors from other member states are aware of the opportunity, even for small value contracts or contracts under the EU Threshold levels outlined below in Table 7.4.
- 7.3 The public notice referred to at 7.2 may take the form of a notice or advertisement in an electronic or paper format, on an easily accessible website or other electronic media and/or in the press, trade journals or Official Journal of the European Union (OJEU) (as appropriate). The Responsible Officer may choose to place one or more public notices in different media.

7.4 Table setting out financial thresholds and procedures

Total value £	Type of contract	Procedure to be used
0 to 10,000	works, supplies and services	At least one quote in advance
10,001 to 74,999	works, supplies and services	At least three written quotes in advance
75,000 to 139,892**	works, supplies and services	At least three written tenders in advance, following advertisement by public notice
139,893** plus **EU Threshold for supplies and services	supplies and services	EU Rules apply – full competitive process following advertisement in the OJ for supplies and Part A* services. For Part B* services reduced requirements apply under the EU Rules but there is a presumption in favour of advertising and a competitive process
139,893 to 3,497,312**	works	Full competitive process with tenders following advertisement by public notice
3,497,313** **EU Threshold for works	works	EU Rules apply – full competitive process with tenders following OJ advertisement

* For the purposes of the EU Rules services are divided into two types and the EU Rules apply to a different degree. Responsible Officers should act cautiously and seek advice when considering the procedure to be used and application of the EU Rules to services contracts

** or relevant threshold in force at the time under the EU Rules

- 7.5 Where contracts are of a type and value which means that they are subject to the EU Rules then there are four main types of EU procedures available. These are the open, restricted, competitive dialogue and competitive negotiated procedures. Care must be taken to ensure that the correct and most appropriate procedure is used and assistance on the choice and use of EU procedure should be sought.

CSO 7.1

- 1 The table at CSO 7.4 sets out a number of thresholds and the purchasing procedures to be used at each of the threshold levels specified. The Council needs to ensure there is appropriate competition for its purchasing, both to comply with statutory requirements, but also in order to demonstrate that it is achieving best value. The table identifies different

thresholds because it is also important to ensure that the process undertaken is proportionate to the purchase. Thus, for example, it may be inappropriate to run a more complex tender process of the type provided for by the EU Rules for a small scale, low value purchase.

- 2 As is noted in CSO 7.2, there is a general presumption in favour of competition and so wherever possible, contract opportunities should be advertised by way of some form of public notice. It should be noted that EC Treaty Principles mean that even if a contract is relatively small, if it is of potential interest to contractors from other member states (and this is possible in most situations), then the Council must consider advertising in a manner which ensures that potential contractors from other member states are aware of the opportunity and have a chance to apply to deliver these services. This requirement may be satisfied, for example, by advertising on a website, (either the Council's own website or, for example, the south east business portal) which ensures that contractors from other member states have a chance to search for and so be aware of contract opportunities offered by the Council.
- 3 The EU Threshold levels set out in 7.4 are fixed for 2 year periods. The current levels of £139,893 for supplies and services contracts and £3,497,313 for works contracts will apply until 31 December 2009. The EU Thresholds will then be recalculated by reference to exchange rates at that date and new EU Threshold levels will apply with effect from 1 January 2010 for the following 2 years (and so on).

CSO 7.2

- 4 Whilst there is a general presumption in favour of competition, there will be some circumstances where a competition will not be undertaken for a new contract. These are outlined in CSO 13. All of those involved in the purchasing process must bear in mind that these are genuinely exceptional circumstances and so where a competitive process is not used, then this needs to be clearly evidenced and appropriate approvals obtained in advance.

CSO 7.3

- 5 Public notices for quotes or tenders can take a number of different formats, but the general principle is that they should be easily accessible and easily understood. Whilst paper format, for example an advert in the press or trade journals, may be appropriate, increasingly it is important to ensure that opportunities are made available electronically on an easily accessible website, or other electronic media.
- 6 If an advertisement is to be placed in the Official Journal of the European Union (OJEU), then that requires a standard format to be adopted and submitted electronically. If an OJEU advertisement is being used, then an advertisement may not be placed for the same contract in any other media until the advertisement has been dispatched to the OJEU

CSO 7.4

- 7 As explained above, the procedures to be used tie in with the estimated value of the contract. For contracts under £10,000 it is normally appropriate to award a contract following receipt of just a written quote. For purchasing at this level, it is quite likely that one of the Purchasing Schemes referred to in CSO 15 may be more appropriate and deliver better overall value to the Council. The Council's basic requirements and principles as outlined in CSO 1 must be complied with, so that even when only a single quote is sought, resources are used efficiently and principles of sustainability, efficiency, whole life costings and costs savings are incorporated, where appropriate, into the process.

- 8 For contracts up to £75,000, it is acceptable to undertake a process involving obtaining quotes, rather than formal written tenders, but serious consideration should be given to the requirement for a public advertisement (see commentary on CSO 7.1).
- 9 For a contract in excess of £75,000, you are required to ensure that written tenders are provided in advance, following an advertisement by way of public notice. Written tenders will usually be submitted by contractors in response to an invitation to tender, issued by the Council. Written invitations to tender will generally include relevant specifications and briefs of the technical requirements, the contract terms to be used and instructions on the conduct of the procurement process itself, including timescales for responses.
- 10 For contracts of a type and value caught by the EU Rules, much more detailed provisions apply. The EU Threshold for supplies and services contracts and for works contracts differ significantly. The supplies and services threshold is much lower than the threshold for works contracts.
- 11 The Council has chosen to set its own threshold requiring a full competitive purchasing process for works contracts whose values exceed the EU Threshold for supplies and services contracts.
- 12 Under the EU Rules there are two types of service contracts. Part A contracts are listed in Schedule 3, Part A of the Regulations. For these type of contracts, *all* of the EU Rules will apply if the contract value is over the threshold. This includes the obligation to advertise in the OJEU, follow the detailed EU Rules relating to selection and evaluation processes including the requirement to publish the award criteria and weightings in advance, as well as the requirement to comply with statutory timescales.
- 13 Part B services are listed in Schedule 3, Part B of the Regulations. For these types of contracts, there is no obligation to advertise in the OJEU or to follow most of the detailed EU Rules, but there is a presumption in favour of advertising and a competitive process. There are also obligations under the EU Rules to ensure that specifications and technical requirements are defined in a non discriminatory way and to publish an award notice in the OJEU, once the contract has been awarded. Please seek advice from the Council's Procurement unit when dealing with any contract which may, or does, fall within the EU Rules including service contracts for Part B services.
- 14 Contracts often involve a mix of works, supplies and services i.e. hybrid contracts. Where the contract is a mixed contract and is of a value which means that it may fall within the EU Rules, then great care needs to be taken in calculating the potential value of the contract to establish whether or not the EU Rules apply. (See notes on calculating the contract value at CSO 9). If you are in any doubt as to whether or not the EU Rules apply, then seek advice from the Procurement unit

CSO 7.6

- 15 There are four main types of competitive procedures available for contracts which are caught by the EU Rules. These all involve advertising in the OJEU. The open and restricted procedures are the procedures which the Council will generally use for all purchasing which is caught by the EU Rules.
- 16 **Open Procedure:** This involves accepting applications and tenders from all interested parties. Full contract and specification documents are issued to all applicants and there is no opportunity to negotiate.

- 17 **Restricted Procedure:** This procedure allows the Council to restrict the number of applicants (tenderers) to whom it issues an invitation to tender. The Council is permitted to shortlist applicants responding to the OJEU advertisement using specified short-listing criteria. The Council can then issue an invitation to tender to the shortlisted tenderers. The invitation to tender will include the full contract specification and technical requirements, as well as the contract terms. The Council is not permitted to negotiate with the tenderers.
- 18 **Competitive Dialogue and Competitive Negotiated Procedures:** In exceptional circumstances, the Council may use the competitive dialogue, or competitive negotiated procedures. These procedures are only appropriate in the context of complex projects*. In practice, the competitive negotiated procedure will rarely be available for the Council to use. A decision to use a competitive dialogue or competitive negotiated procedure can only be taken after consultation with the Council's Procurement unit and following approval by the appropriate Director.

*The Regulations do not state whether the competitive dialogue procedure or the competitive negotiated procedure should be used of preference. However, the competitive dialogue procedure has been introduced to provide a clearly structured process for use in the context of complex projects. One of the main reasons for its introduction was to address major concerns at a European level relating to the over use of the competitive negotiated procedure – which was only intended for use in genuinely exceptional circumstances. There was a particular reservation about the extent to which authorities were negotiating with a single bidder towards the end of the procurement process. This was regarded as potentially anti competitive. These concerns led to the introduction of the competitive dialogue which provides for structured negotiations with bidders but little room for further discussion once final tenders are submitted.

Both the European Commission and the UK's Office of Government Commerce have made it clear in their notes/guidance on use of the competitive dialogue that it should be used in preference to the competitive negotiated procedure. The OGC has indicated that the competitive negotiated procedure may only be used in truly exceptional circumstances and has provided the development of the London Underground as an example. Competitive dialogue is now being used as the standard procedure in most PFI, PPP and complex outsourcing projects.

- 19 **PIN:** The Council has the option to file a PIN (Prior Information Notice) and if it does so then in certain circumstances it may reduce some of the statutory timescales under the Rules. In respect of supplies and services contracts, a PIN should be published as soon as possible after the commencement of each financial year. The PIN should contain details of supply and services contracts for which the Council expects to seek tenders during the forthcoming 12 months.

For works contracts, a PIN should be issued as soon as possible after the decision approving the planning of a work or works which exceeds the relevant threshold.

If the Council does decide to publish a PIN then the standard PIN form should be used. Standard forms are accessible through the European Commission's website: <http://simap.eu.int/> or <http://www.bipsolutions.com/html/ecdirectives.htm>

8 Financial Thresholds and Processes Applying to Approval and Execution of Contracts

- 8.1 For contracts over the relevant EU Threshold (in force at the time), the choice of purchasing procedure to be used and the decision to proceed to advertisement must be authorised in writing by the Head of Business Improvement (or an officer authorised in writing by him) in advance.
- 8.2 When a decision is made to award a contract then the Responsible Officer must, in addition to complying with his/her general obligations under these Contract Standing Orders ensure, in particular, that:
- 8.2.1 the appropriate approvals have been obtained to authorise that decision; and
 - 8.2.3 where appropriate, a standstill period complying with the EU Rules is incorporated into the final award process.
- 8.3 Any contracts valued at £75,000 or above shall be executed as a deed. All other contracts may be signed by officers with appropriate delegated authority. £10,000 shall be the threshold for the purposes of Regulation 8 of the Local Authority (Executive Arrangements) (Modification of Enactments and Further Provisions) (England) Order 2001.
- 8.4 Electronic signatures may be used in accordance with the Electronic Signature Regulations 2002 provided the sufficiency of security arrangements has been approved by the Head of Internal Audit and Risk Strategy.

CSO 8.2.2

- 1 Where contracts are subject to the specific requirement under the EU Rules to advertise in the OJEU, then Regulation 30 requires the Council to include a standstill period once it has decided on a successful contractor. The Council is required to write to all of the candidates and tenderers in the process notifying them of its decision and including specified information. The Council may enter into the contract with the successful contractor, only after a period of 10 days has passed and only then, if there has been no formal challenge of the Council's award decision. The provisions of Regulation 30 are quite complex. Correspondence with the candidates and tenderers and timescales must comply with the Regulations. You MUST take advice from the Procurement unit on this point.

CSO 8.3

- 2 Where a local authority contract is at or above the threshold value of £10,000 but below £75,000, the contract must be signed by two officers on behalf of the Council, or the contract can be under seal. This means that a Member cannot enter a contract on behalf of the Council.

These CSOs require that all contracts at or over threshold value of £100,000 will be under seal, and that the seal must be witnessed by a Solicitor employed by the Council.

CSO 8.4

- 3 Helpful guidance on the Electronic Signature Regulations is available at www.dti.gov.uk

9 Calculating the Contract Value

- 9.1 The starting point for calculating the contract value for the purposes of these Contract Standing Orders is that the contract value shall be the genuine pre-estimate of the value of the entire contract excluding Value Added Tax. This includes all payments to be made, or potentially to be made, under the entirety of the contract and for the whole of the predicted contract period (including proposed extensions and options).
- 9.2 There shall be no artificial splitting of a contract to avoid the application of the provisions of the EU Rules and/or these Contract Standing Orders.
- 9.3 The EU Rules can cover contracts which are below the stated EU threshold where they constitute repeat purchases and/or purchases of a similar type in a specified period. Responsible Officers should therefore seek advice on the application of the EU Rules where they envisage that they may require repeat purchases and/or purchases of a similar type.

CSO 9.1

- 1 The estimated contract value is the entire contract value. In practice, this means you need to take into account all of the actual, or potential, payments to be made under the contract, during the whole life of the contract.

Examples: For the purchase of equipment you should take into account the actual and likely costs of:

- The initial purchase (including cost of purchase if it is funded by way of a lease);
- Installation;
- Servicing for the entire contract period;
- Training and other support for the entire contract period; and
- Consumables for the entire contract period.

For the carrying out of cleaning services you should take into account the actual and likely costs of

- The annual cost of providing the service multiplied by the number of years of the contract INCLUDING possible extensions allowed for in the contract;
- Possible inflation uplifts during the contract period.

- 2 You must take into account the entire contract period. If the contract is for an initial period of, for example, 3 years but there is an option to extend for a further 2 years, then the value of the contract should be the total potential 5 year period and not just the initial 3 year period. Similarly, if the contract relates to an initial purchase but there are options to make additional purchases in the future, then the total potential value, including the value of potential additional purchases, must be taken into account, in calculating the value of the contract.
- 3 You should also take into account, using your best genuine estimates, the impact of any inflation value or uplift on the contract. Thus, for example, if the contract allows for a 3%

increase each year and the contract is for up to a 5-year period, then you need to allow for the total value of the contract, including the likely inflation provisions.

- 4 Where there is uncertainty surrounding the potential total contract value, for example, the inflation provisions have not been finally agreed or there are a number of options, then you need to use your best estimate and act cautiously and assume that the higher potential value will apply.

CSO 9.2

- 5 It is very important to ensure there is no artificial splitting of a contract to avoid either the application of the EU Rules, or the CSOs. Whilst there may be genuine reasons why the Council's requirements may be split into various contracts, under the EU Rules there are specific provisions which prevent this being done with the intention of avoiding those EU Rules. In this context, it is also important to understand that if the Council requires repeat purchases of same or similar items, services or works, then you may have to take into account all of those potential requirements for all Council departments in order to establish whether or not the EU Procurement Rules apply.

Example: The Council knows that it is going to purchase a number of PCs in the next 12 months. It is clear what its requirement is immediately, but it has also budgeted for ongoing purchases over the next 12 months, which take the potential value of the contract over the EU threshold for supplies. In these circumstances, the Council will need to ensure that the purchase is advertised in the OJEU and follow the EU Rules.

- 6 The detailed EU Rules on calculating the value of the contract are in place to ensure that the EU Rules are not avoided, due to the inappropriate splitting of contracts. If it is possible that the Council as a whole may have repeated requirements for the same or similar items, services or works, then you must discuss this with the Procurement unit.
- 7 Where there is a requirement for repeated purchases, it may well be that a Purchasing Scheme is a better approach for the Council to adopt. Purchasing Schemes such as a centrally organised framework arrangement run by a central purchasing body should ensure that the EU Rules have already been satisfied, so there is no ongoing obligation to advertise in the OJEU or elsewhere each time a requirement arises. This may well represent better overall value to the Council.

10 Principles Underlying Tendering Processes and Tender Evaluation

- 10.1 All tendering procedures (including obtaining quotes), from planning to contract award and signature, shall be undertaken in a manner so as to ensure:
 - 10.1.1 Sufficient time is given to plan and run the process
 - 10.1.2 Equal opportunity and equal treatment
 - 10.1.3 Openness and transparency
 - 10.1.4 Probity
 - 10.1.5 Outcomes which deliver sustainability, efficiency and cost savings (where appropriate).

CSO 10

- 1 Pre-planning is critical for all purchasing. All purchasing procedures (both through quotes and more formal tendering) must be undertaken in a manner which ensures integrity of the process and within appropriate timescales.
- 2 For purchasing processes subject to the EU Rules, there are statutory timescales which must be followed. These are minimum timescales and should be used as a starting point for planning an appropriate timetable.
- 3 In considering how much time is required, you should allow for preparation time, the amount of time and resources required to draft the relevant technical and legal documents. You also need to take account of internal procedural requirements such as approvals processes as well as appropriate timescales to allow contractors to fully prepare their responses. Different timescales will apply according to the nature and complexity of the purchase being made.
- 4 **CSO 10.1.2:** The EC Treaty Principles apply to **all** purchasing by the Council. This means that all contracts must be let fairly. Councils must not do anything that might prejudice fair and open competition for a contract. The principles require the Council to ensure that there is equal opportunity and equal treatment of all potential contractors through any purchasing exercise. The Council must not unduly favour contractors or applicants from a particular country including favouring applicants from the UK.
- 5 **CSO 10.1.3:** The EC Treaty Principles also require all purchasing processes to be run in an open and transparent manner. This means that the documents being used in the purchasing process should make it clear to all parties participating in the process, what is happening, when and why. All potential contractors should be given an equal opportunity to clarify the Council's requirements and processes.
- 6 **CSO 10.1.4:** Probity means that each purchasing exercise transparently secures the best value for the Council in the public interest, untainted by conflicts of interest, collusion or private advantage.
- 7 **CSO 10.1.5:** See comment above at CSO 1.

11 **Submission and Opening of tenders**

- 11.1 An Invitation to Tender shall be issued by the Council for all contracts over £75,000 and tenders shall be submitted in accordance with the requirements of the Invitation to Tender.
- 11.2 Any tenders received (other than those received electronically, to which 11.3 shall apply) shall be:
 - 11.2.1 addressed to the Director of Prosperity and Regeneration or other nominated Director not involved in the Tender process.
 - 11.2.2 in a sealed envelope marked "Tender" followed by the subject matter to which it relates
 - 11.2.3 kept in a safe place by the Director of Prosperity and Regeneration or other nominated Director
 - 11.2.4 retained unopened until the date and time specified for its opening.
- 11.3 Where the Council has indicated in the Invitation to Tender that a tender can or must be submitted electronically, then those tenders shall be:
 - 11.3.1 addressed to the e-mail address as notified in the Invitation to Tender
 - 11.3.2 in the format specified in the Invitation to Tender
 - 11.3.3 stored in a secure mailbox, which requires a code or other appropriate security measure, to open it
 - 11.3.4 retained unopened until the date and time specified for its opening.
- 11.4 No tender received after the time and date specified for its opening shall be accepted or considered by the Council unless the Director of Prosperity and Regeneration or other nominated Director is satisfied that there is sufficient evidence of the tender having been dispatched in time for it to have arrived before the closing date and time, or other exceptional circumstances apply and the other tenders have not been opened.
- 11.5 Tenders shall be opened by the Director of Prosperity and Regeneration or other nominated Director or a member of their staff designated by them and an immediate record shall be made of tenders received including names and addresses and the date and time of opening.

CSO 11

- 1 The Director of Prosperity and Regeneration shall usually be responsible for the processes under this Standing Order unless her services have an interest in the contract in which case she will nominate another Director to be responsible.

- 2 Tender processes must be undertaken in an open and transparent way and explained to tenderers so that they understand what you are doing, why and when
- 3 All contracts over £75,000 must involve a formal advertisement and invitation to tender process. All contracts above the EU Rules thresholds must also comply with the detailed EU Rules applying to the conduct of the tender process. These may differ according to the type of process used.
- 4 The invitation to tender should, as a minimum, include:
 - Instructions to tenderers which set out when and how tenders must be submitted, in what format and where queries should be addressed to at the Council.
 - The specification/technical details of the subject matter of the contract.
 - The contract terms and conditions which will apply.
 - The tender evaluation criteria.
 - The process for awarding the contract.
- 5 Invitations to tender should be written in plain language and avoid the overuse of unnecessary technical terms.
- 6 **CSO 11.2:** All tenderers must be treated in the same way; hence the requirements that the tenders are all presented in a similar manner when submitted to the Council by the tender return date. Tenders are to remain unopened until the date and time specified for opening so that, for example, there is no potential for an early tender to influence the process.
- 7 **CSO 11.3:** The same reasoning as for CSO 11.2 underlines the provisions relating to electronic submission of tenders.
- 8 **CSO 11.4:** Late tenders should normally be rejected unless (1) late delivery is a result of actions outside the control of the tenderer or (2) other exceptional circumstances exist which the Council, in exercising reasonable discretion, deems sufficient to allow acceptance. Where a decision is made to accept a late tender, then it is sensible to document the time of receipt of that tender and the reasons why the tender has been accepted.

Practical examples of the sort of circumstances where late tenders may on occasion be accepted include:

- Where the Council's offices were unexpectedly closed at the date specified for receipt of tenders so that tenders could not be delivered on time.
- Particularly severe weather which may have delayed the arrival of a tender sent by courier but where there is clear evidence of dispatch with sufficient time allowed for delivery to comply with the tender return time and date.
- Where a tender has not been received at all but there is genuine and persuasive evidence that the tender was prepared and dispatched on time.

- 9 **CSO 11.5:** There needs to be a clear audit trail of all tenders received, from whom and when they are opened, to ensure that there is no preferential or unfair treatment.
- 10 What happens if tender processes do not go as planned or if there is technical non compliance? The Council's standard "Invitation to Tender" document should include provisions stating that tenders can be rejected if they are not compliant with the

requirements of the Council, including compliance with submission dates, times and format. Where a tender is received which is non compliant because, for example, the envelope is not marked as required, then, subject to any limitations in the Scheme(s) of Delegation, the Responsible Officer (or Director where appropriate), may exercise some discretion in terms of whether or not that tender is accepted. Similarly, where there is provision for this in the Invitation to Tender, if after undertaking an initial review of the tender documents, the Responsible Officer is of the view that a genuine mistake, such as a mathematical error has been made in the tender, then the Responsible Office (or Director where appropriate) may wish to exercise discretion and go back to the affected tenderer to clarify the submission made. If you wish to exercise this type of discretion, you should ensure that this falls within your delegated powers and you should take advice from the Procurement unit. All exercises of discretion should be carefully recorded in writing, including reasons why the discretion was exercised.

- 11 Where tenders are submitted electronically or by other digital media, then the Council should have in place, appropriate systems to ensure that receipt can be clearly recorded to ensure that tender timescales are complied with. Again, the Responsible Officer (or Director where appropriate) may exercise discretion as to whether or not to receive and accept tenders which are not submitted strictly in accordance with these requirements, although exercise of that discretion, should be exceptional and you should take advice from the Procurement unit.

12 Evaluation of Quotes and Tenders

- 12.1 All quotes and tenders shall be evaluated in accordance with evaluation criteria notified in advance to those submitting quotes/tenderers.
- 12.2 Tenders subject to the EU Rules shall be evaluated in accordance with the EU Rules.
- 12.3 Save in exceptional circumstances approved in advance by Head of Business Improvement all contracts shall be awarded on the basis of the quote or tender which represents best value for money to the Council and not on the basis of lowest price.

CSO 12.1

- 1 The Council is under a general obligation to ensure that it is open and transparent about its purchasing procedures. This includes how you select the best tender or quote. This general obligation under the EC Treaty Principles applies to all purchasing and contracts – both those subject to the EU Rules and those not caught by those EU Rules.
- 2 “Evaluation criteria” are the criteria which you will use to assess a quote or tender in order to come to a decision on which quote or tender best meets the Council’s requirements and so who should be awarded a contract. It is important that you are clear and open with tenderers about what criteria you will use and that both they and you know, in advance, how the Council will assess/mark against the criteria. Where the EU Rules apply to the contract, then you are obliged by law to disclose the tender evaluation criteria in advance (see CSO 12.2).
- 3 This means that for all purchasing, the evaluation criteria must be set out in advance and be provided to the tenderers together with any scoring or assessment scheme which will be used. The criteria and scoring or assessment scheme cannot be changed after they have been provided to the tenderers, so you must be certain that the criteria are robust and the scoring or assessment scheme is appropriate for the particular contract and purchasing process.
- 4 Notification of the criteria and scoring or assessment scheme can be done in a number of ways – depending upon the type of process which you are using. For simple quotes, the evaluation could just be set out in a list in the letter inviting contractors to quote. For more formal processes, it would generally be more appropriate to include this information in the Invitation to Tender document and this may involve a more complex presentation style.
- 5 Specific provisions relating to tender evaluation criteria apply to contracts which are subject to the EU Rules (see commentary on CSO12.2)

CSO 12.2

- 6 The EU Rules have specific provisions applying to tender evaluation criteria. The main legal provisions are at Regulation 30. This section now goes on to explain some of the key provisions of Regulation 30.

7 The Council is required to award contracts on the basis of an offer which is either (1) the lowest price or (2) the “most economically advantageous” – which means that other factors, in addition to price, can be taken into account such as quality, timing and delivery. In practice, the Council is extremely unlikely to opt to award a contract on the basis of lowest price only and CSO 12.3 reflects this.

8 Regulation 30 provides examples of the sort of evaluation criteria which can be used to assess what amounts to the “most economically advantageous tender”. This includes factors such as quality, price, technical merit and after sales service. The list is not exhaustive and so other evaluation criteria can be used. All evaluation criteria used by the Council in evaluating a tender must be linked to the subject matter of the contract. This means that the criteria must be related to the works, supplies or services which are actually being purchased. We have given two examples of evaluation criteria below. There is more guidance in the Office of Government Commerce papers “Social Issues in Purchasing” and “Fair and Ethical Trading”.

Example 1. Environmental Considerations

The Community of Helsinki decided to put their bus services out to tender. They used award criteria such as overall price, quality of the bus fleet and operational quality. Under one award criterion, companies could score extra points if they could comply with certain emission and noise levels. On the basis of these extra points, the contract was awarded to the municipal transport company.

A losing tenderer opposed this decision, arguing that emission and noise levels could not be used as an award criteria.

The European Court of Justice ruled that the criteria could be used as (1) there was a sufficient link to the subject matter of the contract, (2) the criteria were specific and objectively quantifiable, (3) use of these criteria were notified in advance and (4) it was in accordance with basic Treaty principles.

Example 2. Social considerations -the social issue must be relevant to the purchase Buying coffee/Fairtrade principles

The Council may specify organic coffee because the production process relates to the production of the coffee in terms of chemical content and the way it is grown. However, they cannot specify **only** fair trade coffee because this relates to the standard of living of the coffee growers and not the product. The Council can say in its contract documents that it would welcome fair trade coffee options such as Fairtrade or equivalent as part of a coffee supply contract. The bids should be evaluated on a value for money basis using the organic criteria and others directly related to the subject of the contract. Where the winning tenderer can supply fair-trade coffee, then the contract documentation may say that it should be made available at civic meetings.

9 The evaluation criteria which the Council will use must be stated in advance either in the OJEU advertisement or in the tender documents. (The Regulations refer to the “contract documents” but in this context this means the Invitation to Tender (or equivalent documents if the open or restricted procedures are not being used).

10 In addition to setting out in advance what the evaluation criteria are, the Council is also required to state what “weighting” will be applied to assessing each of the criteria. The weightings must be listed together with the criteria – either in the OJEU notice or in the tender documents. This requires the Council to give careful thought well in advance as to

how tenders will be evaluated. Your procurement team should be able to give you advice on formulating evaluation matrices.

- 11 It is only in very exceptional circumstances, that the Council will be able to avoid the requirement to list the weightings in advance. You should start with the assumption that weightings must be provided. If you consider that it is not possible to do this, then you must discuss this with the Procurement unit. If weightings cannot be provided, then the Council is still required to list the criteria and must list them in descending order of importance.

13 Waivers

- 13.1 The requirement for the Council to conduct a competitive purchasing process for contracts in excess of £10,000 may be waived in the following circumstances.
- 13.1.1 For contracts which are not subject to the EU Rules, the work, supply or service is required as a matter of urgency and a delay would be likely to lead to financial loss, personal injury or damage to property; or
 - 13.1.2 the circumstances set out in Regulation 14 apply (whether or not the contract is of a type which is subject to the application of the EU Rules); or
 - 13.1.3 the contract is awarded under a Purchasing Scheme of a type where a competition has already been undertaken on behalf of the Council; or
 - 13.1.4 at the discretion of the Head of Business Improvement who may proceed in a manner most expedient to the efficient management of the service/Council with reasons recorded in writing.
- 13.2 A Responsible Officer who seeks a waiver of Contract Standing Orders other than SO 13.1.3 shall do so only in advance and only in exceptional circumstances. Further guidance on what may constitute exceptional circumstances permitting waiver of these Contract Standing Orders is set out in the Council's Purchasing Guide.
- 13.3 All waivers from these Contract Standing Orders must be:
- 13.3.1 Fully documented
 - 13.3.2 Subject to a written report in an approved format to be submitted in advance to the appropriate Director which shall include reasons for the waiver which demonstrate that the waiver is genuinely required
 - 13.3.3 Subject to approval in advance by the appropriate Director who shall consult the relevant Cabinet Member and record that they have considered the reasons for the waiver and that they are satisfied that the circumstances justifying the waiver are genuinely exceptional.
- 13.4 All decisions on waivers must take into account:
- 13.4.1 Probity
 - 13.4.2 Best value/value for money principles.
- 13.5 For contracts subject to the EU Rules, any waiver from the requirement for competition must meet the conditions set out in the EU Rules in addition to the general requirements above.
- 13.6 A waiver shall not be applied for reasons of poor contract planning.

CSO 13

- 1 The requirements of the CSOs can only be waived in very exceptional circumstances and in advance. If a waiver is made to these CSOs, then the provisions of CSO 13 must be complied with to ensure it is clear why the decision has been made and by whom. All the relevant circumstances must be taken into account.
- 2 These provisions should not be used merely where to go out to tender would, for example, result in additional administrative or procedural burdens or a short period of delay. The waiver provisions should not be used as an excuse for poor procurement practice or for a lack of advanced planning (see CSO 13.6). The general presumption is that contracts will be put out to competitive tender so as to ensure that the Council uses its resources efficiently, purchases quality good services and works, safeguards its reputation from any implication of dishonesty or corruption and is able to demonstrate principles of sustainability, efficiency, whole life costings and cost savings.
- 3 It is very important to note that if the contract is of a type and value which means that it is subject to the EU Rules then there are only very limited circumstances in which a contract can be awarded without competition and the permitted circumstances are extremely narrowly interpreted. If you are seeking to exclude an EU contract from the requirement to go out to competition then you must seek advice in advance from the Procurement unit.
- 4 For contracts which are not subject to the EU Rules there are still obligations in terms of ensuring appropriate levels of competition (see comment at CSO 4.1.2 and CSO 7.1).

CSO 13.1

- 1 **CSO 13.1.1:** This CSO sets out the circumstances where it may be permissible due to a matter of urgency for the Council to purchase works, supplies or services without going through a competitive process.

Example: For a contract not subject to the EU Rules, a waiver from the requirement of competition may be appropriate using CSO 13.1.1 where, due to unforeseen circumstances, there is an urgent requirement for the provision of domiciliary care services and failure to deliver those services as speedily as possible may lead to health and safety issues for users.

- 2 **CSO 13.1.2:** Regulation 14 of the Public Contracts Regulations 2006 sets out certain, narrowly constrained circumstances where contracts which are subject to the EU Rules can be awarded without following a competitive purchasing process. These EU Rules also provide a good steer for the sort of circumstances where it may be acceptable to waive the requirement for competition for contracts which are not subject to the EU Rules. These include the following types of situation:

Examples:

- Where the Council has already gone out to an open and competitive tender, but only non compliant tenders have been received. It therefore decides to terminate the procurement process and negotiate the contract with those bidders who submitted a tender as part of the previous process.
- Where the Council went out to open competition and received no responses at all, in which case it decides to approach a single contractor and negotiate a deal on the basis of the original terms included in the public tender process.
- Where the Council already has a contract under which goods have been supplied to it and then it requires additional goods which could not be provided by another supplier. There must be genuine incompatibility between the existing goods and those to be purchased or genuine and disproportionate technical difficulties in procuring the goods from elsewhere. Under the EU Rules, the additional requirements must also be purchased within 3 years of the original contract.
- Where there is a closing down sale and so goods can be purchased on a particularly advantageous basis.

These examples are not an exhaustive list but they do give an indication of the sort of circumstances where the purchase of additional goods, works or services without competition may be permissible. Where the Council wishes to extend a contract then CSO 14 will also apply.

- 5 **CSO 13.1.3:** Where a contract is awarded using a Purchasing Scheme (where appropriate, one which is compliant with the EU Rules) then provided that the Council is satisfied that the conditions set out in CSO 15 are met then there will be no further need to run a competition as that has already been undertaken on behalf of the Council.
- 6 **CSO 13.1.4:** In exercising discretion as to the award of the contract without the competitive process, the individual making that decision must pay due regard to the requirements of the CSOs and this purchasing guide. If the EU Rules apply then they must seek advice from the Procurement unit prior to proceeding.

Examples of where a waiver may be justified include:

- Requiring two rather than three written quotes for a contract between the value of £10,000 - £75,000 where there is clear evidence that the number of potential contractors is extremely limited
- A decision to go down a written quotation route rather than the requirement to obtain three written tenders in advance (for contracts below the EU threshold) and where the Council is satisfied that (1) there is no obligation to advertise that opportunity to comply with the general requirements of the EC Treaty Principles and (2) the general underlying requirements of the procurement process will still be satisfied.

- 7 **CSO 13.3:** The appropriate Director for this Standing Order is the Director of Resources and Partnership, unless their service has an interest in the contract, in which case they will nominate another Director. The relevant Cabinet Member is the Cabinet Member responsible for the particular budget.

- 8 **CSO 13.6:** Waivers should not be utilised for reasons of poor planning. It should not be the case that a contract is due to expire and has not been properly planned for. Appropriate tender lead cycles need to be factored into the planning process to avoid avoidance of best practice procedures.

14 Extensions to Existing Contracts

- 14.1 Where extensions to existing contracts are made, the extensions must be determined in accordance with the contract terms, for a specified period and made in accordance with the principles set out in the Council's Purchasing Guide.
- 14.2 Any extension must be:
 - 14.2.1 Fully documented
 - 14.2.2 Subject to a written report in an approved format to be submitted to a Director which shall include reasons for the extension which demonstrate that the need for the extension is genuinely exceptional
 - 14.2.3 Subject to approval by the Director who shall record that they have considered the reasons for the extension and that they are satisfied that the circumstances justifying the extension are genuinely exceptional.
- 14.3 Any extension must take into account:
 - 14.3.1 Probity
 - 14.3.2 Best value/value for money principles.
- 14.4 For contracts subject to EU Rules, any extension must meet the conditions set out in the EU Rules in addition to the more general requirements set out above.

CS0 14

- 1 This CSO is primarily aimed at addressing the issue of when and how a contract period may be extended. There is a general presumption against the extension of contracts. Contracts may only be extended beyond their original term in genuinely exceptional circumstances. Any extension must be for a limited and specified period. Where the contract is caught by the EU Rules then the contract period may only be extended in limited circumstances and you must seek advice from the Procurement unit.
- 2 Clarity and certainty are key factors in establishing whether or not an extension is permissible. A well drawn up contract will set out in advance the clear basis upon which that contract may be extended.

Example: When the contract for IT support services was advertised, it was made clear in the advertisement that the contract would be:

- for an initial period of five years
- with an option to extend for up to a further two years

The provisions of the original contract explained how the extension is to be exercised together with the costs. The Council is now proposing to exercise the option to extend. There will be no renegotiation of either the legal terms, scope of the contract or the payment arrangements (except for the price inflation provisions specifically allowed for within the contract and clearly defined in advance). This extension is permissible.

- 3 The problems with contract extensions arises where either there is no provision for extension within the contract or the potential for extension was not made clear at the outset or where the arrangements for the contract extension result in renegotiations. In these circumstances, there are specific provisions which apply in the context of contracts subject to the EU Rules and you must seek advice from the Procurement unit.
- 4 For contracts not subject to the EU Rules then the basic principle is that any period of extension should be limited, for a specified period and the effect of the extension should not be such as to create a disproportionate expansion in the coverage either in terms of value, time period or subject matter of the contract. This is because it may well be regarded as anti-competitive to agree an extension of the contract which effectively awards a valuable opportunity to the existing supplier without having exposed that opportunity to competition and providing other providers with the opportunity to deliver those additional requirements.
- 5 Any extension of the subject matter (as opposed to the contract period) of a contract can generally only be permitted in accordance with the provisions of the contract or in very exceptional circumstances covered by the EU Rules. For longer term or major contracts, there are often provisions that allow for the evolution of the contract to meet the Council's needs, for example, by way of continuous efficiency and improvements clauses. Most of these contracts also incorporate mechanisms to allow for a certain degree of variation or change to reflect the practical issues associated with implementation and ongoing service delivery. Contracts must not be drafted in such a way as to be so flexible that they are in breach of the basic requirement that the contract terms must be clear and certain or to allow for changes which are so significant as to be potentially anti competitive because, for example, they effectively amount to the award of a new contract.
- 6 Particular caution should be exercised in terms of the practical effect of an extension on the contract value. In no circumstances should an extension be made to a contract that has the effect of increasing the contract to a value over the EU Rules thresholds in force at that time.

15 Purchasing Schemes

- 15.1 A Responsible Officer may use Purchasing Schemes subject to the following conditions and the Council's Purchasing Guide.
- 15.2 Responsible Officers must check in advance that
 - 15.2.1 The Council is legally entitled to use the Purchasing Scheme
 - 15.2.2 The purchases to be made do properly fall within the coverage of the Purchasing Scheme
 - 15.2.3 The establishment and operation of each Purchasing Scheme is in compliance with the EU Rules (where they apply) and meets the Council's own requirements.

CS0 15

- 1 There are an increasing number of Purchasing Schemes which the Council may choose to participate in which assist in terms of purchasing efficiencies and value for money. An illustrative list is set out in CS0 15.3 and these types of schemes are discussed in further detail below.
- 2 **CSO 15.2:** Responsible Officers must check three key factors in advance, prior to using a Purchasing scheme:
 - 2.1 **CSO 15.2.1:** Responsible Officers must check that the Council is legally entitled to use the Purchasing Scheme.

Example: in the context of a framework arrangement or purchasing arrangement set up by central purchasing bodies, it is important to ensure that the original process (particularly if it is an EU process) made it clear that the Council could potentially purchase under the terms of that scheme. If the Council was not sufficiently clearly identified in the original establishment of the schemes, then there may be problems with use of that scheme. If it is a purchase subject to the EU Rules, then if the Council has not been sufficiently clearly identified in advance, it may not be able to rely on that scheme to satisfy its own obligations under the EU Rules.

- 2.2 **CSO 15.2.2:** Responsible Officers need to check that the Purchasing Scheme covers the purchases to be made. All Purchasing Schemes should clearly specify what can be purchased under the scheme. This is to ensure that contractors participating in the scheme know what they are providing and purchasers are clear about the coverage and limitations of the scheme. It is therefore important to check that particular schemes do cover all your requirements.
- 2.3 **CSO 15.2.3:** Responsible Officers should ensure that the Purchasing Scheme has been established and is operated in accordance with the detailed EU Rules (where they apply). Purchasing Schemes can be a very efficient way of ensuring compliance with the EU Rules without having to undertake further separate EU procurement processes. The Council cannot discharge itself from its obligations to ensure compliance with the EU Rules.

Example: In the context of framework arrangements it is important to ensure that types of potential purchases to be made by the Council are clearly identified in the original OJEU notice, that the framework is established for the permissible four year period and that any mini competitions are operated in accordance with the provisions of the EU Rules.

- 15.3 A "Purchasing Scheme" may include:
- 15.3.1 Contractor prequalification lists/select lists
 - 15.3.2 Framework arrangements (including those set up by the Office of Government Commerce)
 - 15.3.3 Purchasing arrangements set up by central purchasing bodies and commercial organisations
 - 15.3.4 Consortium purchasing
 - 15.3.5 Collaborative working arrangements
 - 15.3.6 Formal agency arrangements
 - 15.3.7 E-procurement/purchasing schemes and methods
 - 15.3.8 Other similar arrangements

CSO 15.3

- 6 The term "Purchasing Scheme" is used to describe a range of different purchasing practices and the list is not intended to be exhaustive.
- 7 **CSO 15.3.1: Contractor prequalification lists/select lists** are often operated by councils to produce a list of contractors who are appropriately pre qualified to deliver the requirements of the Council. This streamlines purchasing as it means that a contractor's suitability does not have to be assessed every time a contract award is contemplated. Care does need to be taken to ensure that these arrangements do not fall into the trap of being caught by the EU Rules, because they amount to a repeated requirement for the same or similar provision (see comment at CSO 9). Pre qualification and select lists are not permitted for purchasing caught by the EU Rules.
- 8 **CSO 15.3.2: Framework Arrangements:** care needs to be taken to ensure that you understand what is intended by this term and whether or not the Purchasing Scheme is a framework arrangement subject to the EU Rules. The EU Rules define framework arrangements as a very specific type of arrangement. Where the EU Rules apply, frameworks are subject to controls including a limit of 4 years on the life of the framework and the conduct of mini competitions within a framework. However, the term "framework" is used more generally and so you need to be clear about what type of framework you are participating in and whether or not it complies with EU Rules.
- 9 **CSO 15.3.3: Purchasing arrangements: set up by central purchasing bodies and commercial organisations** (including arrangements established by the Office of Government Commerce) are frequently forms of framework arrangements set up to comply with the EU Rules. However, you will need to check that you understand what format the

purchasing arrangements comprise and whether or not EU Rules have been taken into account and, where appropriate, complied with in their award.

- 10 **CSO 15.3.4: Consortium purchasing** may refer to purchasing by groups of authorities together or as one authority on behalf of others, in which case, it is more likely that technically this amounts to a central purchasing arrangement.
- 11 **CSO 5.3.5: Collaborative working** arrangements may involve different levels of formality. Some collaborative working is merely a loose agreement between different organisations to work together in their purchasing. Collaborative working is also used to refer to arrangements which may in practice, involve the pooling of resources. It is important to clarify which sort of collaborative working arrangement is proposed, so as to identify the rules which may apply.
- 12 **CSO 15.3.6:** In some circumstances, a **formal legal agency** arrangement may apply in which case you need to ensure that you understand the legal terms which the Council will be required to contract on.
- 13 **CSO 15.3.7:** All of the above types of Purchasing Schemes may include some form of EU procurement, but there are also other forms of electronic Purchasing Schemes and methods including the use of the electronic purchasing cards, online listings and information sharing. For further information contact the Procurement unit.

15.4 Where a Purchasing Scheme is used then there shall be a whole or partial exemption from the obligations under these Contract Standing Orders in respect of the choice and conduct of procedures to the extent permitted and indicated in the Council's Purchasing Guide.

CSO 15.4

- 14 Where a Purchasing Scheme is used then, as a main driver behind many of these Purchasing Schemes is to simplify procurement, some or all of the CSOs may not apply. In practice, the CSOs less likely to apply, are those which relate to the tendering procedures as many of these procedures will often be undertaken as part of the Purchasing Scheme process. The extent of the application of the CSOs and the exemptions from those standing orders will vary according to the type of scheme being used.
- 15 In general, the provisions of the following CSOs will continue to apply when a Purchasing Scheme is used:

CSO 1 – Purpose of the contract standing orders

CSO 2 – General principles

CSO 3 – General principles applying to all contracts – contracts in writing/standard clauses

CSO 4 – Regulatory context

CSO 5 – Responsibilities of Directors and Responsible Officers

CSO 6 – Schemes of Delegation

- 16 **CSO 7: Financial Thresholds and Procedures**
- CSO 7.1:** Will apply where a Purchasing Scheme is used.
- CSO 7.2:** Will apply where a Purchasing Scheme is used.
- CSO 7.3:** Will apply where a Purchasing Scheme is used where the Responsible Officer is required to make a decision as to the choice of advertising media.
- CSO 7.4:** This CSO will apply only to the extent that it is relevant for a particular Purchasing Scheme. Quotes or written tenders may be procured by way of the Purchasing Scheme. In some circumstances, for example where a framework arrangement for supplies has been established, then the Council can purchase direct from contractors on the framework without the need for a further quote or tender process.
- CSO 7.5:** Will apply where a Purchasing Scheme is used.
- 17 **CSO 8: Financial Thresholds and processes applying to approval and execution of contracts.**
- CSO 8.1:** For contracts over the relevant EU threshold, the choice of purchasing procedure – including choice of the Purchasing Scheme (and thus procedure) should still be authorised in writing in advance.
- CSO 8.2, CSO 8.3 and CSO 8.4:** Responsible Officers still need to ensure that if a Purchasing Scheme is used, then these requirements are complied with.
- 18 **CSO 9: Calculating the contract value.** These principles still apply in calculating the contract value of purchases to be made under Purchasing Schemes.
- 19 **CSO 10: Principles underlying tendering processes and tender evaluation.** The extent to which this CSO will apply will depend upon the nature of the Purchasing Scheme. Some Purchasing Schemes will involve the undertaking of tender evaluation entirely by another organisation. In these circumstances, the Council still needs to be satisfied that the process to be undertaken by that other organisation meets its basic requirements but for example, less attention will need to be paid to ensuring sufficiency of time in planning and running the process as this has been done on behalf of the Council.
- 21 Basic EC Treaty principles of equal opportunities and equal treatment, openness and transparency as well as the need to ensure probity and that the outcomes deliver sustainability, efficiency and cost savings will still apply irrespective of the type of procurement process used, including the use of Purchasing Schemes.
- 22 **CSO 11: Submission and opening tenders:** For certain types of Purchasing Schemes, the Council will not need to issue Invitations to Tender and comply with the other requirements of this CSO as the process itself may be run by another organisation. Again, this will be dependant on the type of Purchasing Scheme used.
- 23 **CSO 12: Evaluation of quotes and tenders:** Irrespective of the Purchasing Scheme used, the Council should be satisfied that the criteria used to select contractors meets its requirements and ensure that best value is obtained. However, for certain types of Purchasing Schemes such as centrally organised framework arrangements and those undertaken by central purchasing bodies, the evaluation criteria and processes will be run by another organisation.

- 24 **CSO 13: Waivers:** These provisions still apply to the extent that they are relevant under Purchasing Schemes.
- 25 **CSO 14: Extension to existing contracts:** These provisions will continue to apply and any extensions to contracts awarded under Purchasing Schemes will also need to meet the requirements of those Purchasing Schemes and be carried out in accordance with those arrangements.
- 26 **CSO 16: Review and change of these CSOs:** These provisions apply. It should be noted that the list at CSO 15.3 of permissible Purchasing Schemes allows for a range of Purchasing Schemes to apply. These are not identified specifically but generically and so new Purchasing Schemes may well fall within the permitted type of Purchasing Scheme without a requirement for a change in the CSOs themselves.

16 **Review and Changes to these Contract Standing Orders**

These Contract Standing Orders shall be reviewed and updated on a regular basis. Save in the case of revisions to the EU Thresholds in Contract Standing Order 7, amended Contract Standing Orders shall be agreed and adopted by the Council. Revisions to the EU Thresholds shall be dealt with by the Head of Business Improvement.

CS0 16

- 1 The CSOs themselves can only be updated in accordance with the provisions set out in the Council's Constitution.
- 2 The EU Thresholds are set by the EU every two years and apply to all member states. There is no discretion available in terms of the threshold at which the EU Rules will apply. It is therefore more appropriate to arrange for amendment of CSO 7 to reflect the new EU Threshold under a scheme of delegation.
- 3 The provisions of this Purchasing Guide can be updated and amended more easily than the CSOs themselves. If you have comments, suggestions or proposals for amendments or improvements to this Purchasing Guide then please contact the Procurement unit.

ATTACHMENT 1

RISK ASSESSMENT

The most common form of assessment in general usage is the 5 x 5 matrix. The colours red, amber, green reflect differing levels of overall risk with green and amber being acceptable and red requiring caution and ways of reducing/managing that risk.

The table at Appendix 1 sets out suggested criteria for assessing the likelihood and impact to produce an overall score.

Ideally, scoring should be undertaken by more than one person to allow for different perceptions of risk; one person’s high risk can be another’s low to medium.

Where the scoring differs across the criteria for impact and likelihood, it is suggested that a cautious approach is to use the score, which is highest for any of the criteria rather than an average. However, be prepared to apply a common sense approach and score accordingly

RISK MATRIX

L I K E L I H O O D	VERY LIKELY SCORE 5	5	10	15	20	25
	LIKELY SCORE 4	4	8	12	16	20
	POSSIBLE SCORE 3	3	6	9	12	15
	UNLIKELY SCORE 2	2	4	6	8	10
	HIGHLY UNLIKELY SCORE 1	1	2	3	4	5
		NEGLI-GIBLE SCORE 1	LOW SCORE 2	MEDIUM SCORE 3	HIGH SCORE 4	VERY HIGH SCORE 5
IMPACT						

Attachment 1: Risk matrix for use in assessing what type of contract is required

Scoring system to be explained?

Score - 2 Unlikely	Score - 3 Possible	Score - 4 Likely / Highly Likely	Score - 5 Very Likely / Definite
Previous experience discounts this risk as being likely to occur but other organisations have experienced problems in this area.	The council has in the past experienced problems in this area but not in last three years.	The council has experienced problems in this area in the last three years.	The council is experiencing problems in this area or expects to in the next 12 months.
There are controls in place that whilst not tested appear to be effective.	Some controls are in place and generally work but there have been occasions when they have failed and problems have arisen.	Controls may be in place but are generally ignored or ineffective.	No controls are in place.

Score - 2 Low	Score - 3 Medium	Score - 4 High	Score - 5 Very High
The financial impact would be extra costs or loss of income of no greater than £25,000.	The financial impact would be extra costs or loss of income of no greater than £100,000.	The financial impact would be extra costs or loss of income of no greater than £500,000.	The financial impact would be greater than £500,000.
Some temporary disruption to the activities of one council service but not beyond this.	Regular disruption to the activities of one or more council services.	Severe service disruption on a departmental level or regular disruption affecting more than one department.	Severe disruption to the activities of all council departments.
It may cost more or there may be delay in delivery one of the council's corporate objectives.	A number of corporate objectives would be delayed or not delivered.	Many corporate objectives delayed or not delivered.	Unable to deliver most objectives.
Some loss of confidence and trust in the council felt by a certain group or within a small geographical area.	A general loss of confidence and trust in the council within the local community.	A major loss of confidence and trust in the council within the local community.	A disastrous loss of confidence and trust in the council both locally and nationally.
