

**Reference number: 14/505125/FULL**

Urgent update on the committee report for a late representation:

Neighbouring occupier Butcher Cottage objects on the following grounds:

- The proposed noise calculation from the condenser unit does not seem to be accurate.
- The noise from the condenser unit would impact their daily lifestyle.
- The condenser unit must not be built first and measured afterwards.
- The proposed site also overlooks into their bedroom and bathroom.

**Recommendation “Approve with conditions” remains unchanged.**
