Subject: Players strip club

To whom this may concern,

I recently worked as a dancer at players nightclub. There were NO rules or regulations to follow or put in place by management which left me uncertain of my role.

I have worked in many other similar type clubs as a dancer which were very well run.

I was often approached in players to take drugs and further money was offered for sexual activities which made me feel degraded.

I could not work in such an environment with no restrictions on the dances.

This club is NOT fit establishment to have a licence of any description

Thanks
