The Location

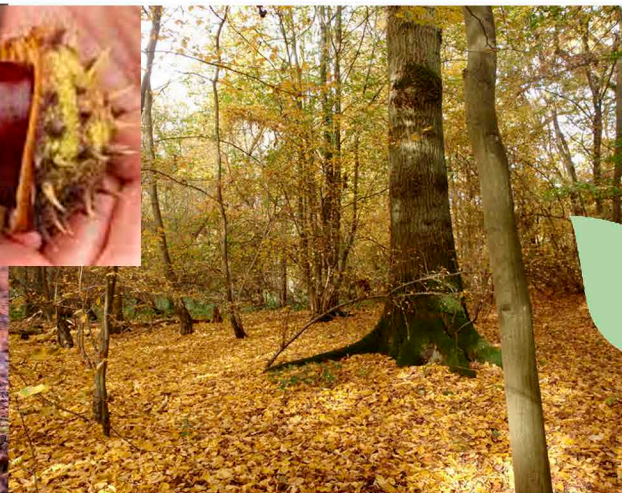

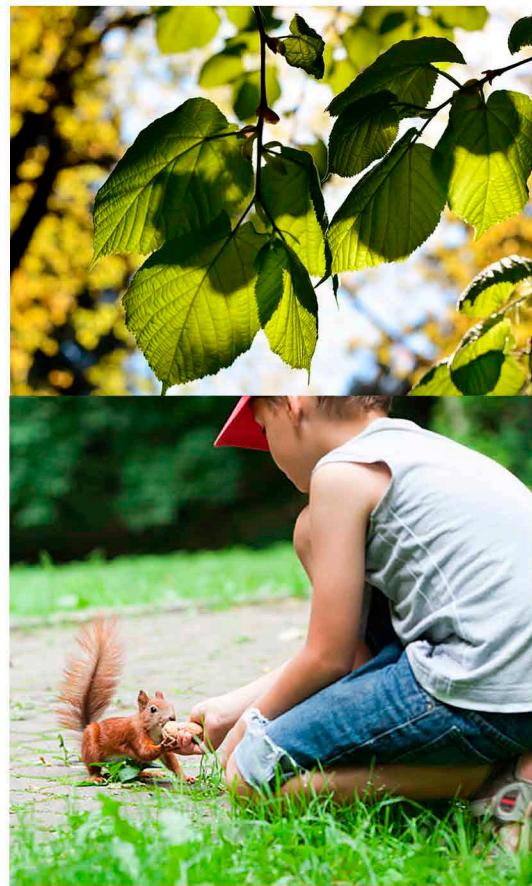

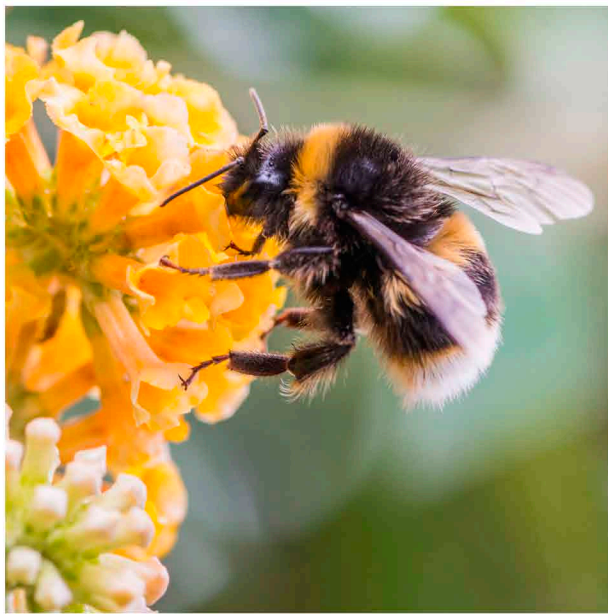

Natural grass setting with trees
and planting

Sculptural stag statue at play area
location entrance

Tranquil riverside setting

Concept Generation

The natural inspiration behind our ideas

Just past the stag, the king of the forest, find
yourself in the woodland clearing.
Welcome to the home of scampers the squirrel
and friends. Discover new ways to play and an
endless imagination for nature...

There is no more wonderful way to play than in the heart of nature.

Our design has been created to compliment the beautiful riverside walk and natural surroundings. Parents can sit back and relax with a coffee or meal at the entertainment centre, whilst their children play safely in the natural landscape close by. We have created a low level inclusive play zone for ages 2-8 that would attract people to come and play time after time. Our robinia play structures add excitement and pure imagination for children to create stories and memories with loved ones.

There is a pathway linking both sides of the playground through the trees, incorporating our design with the existing landscape.

The Products

We have hand picked products to suit the surrounding landscape
