

Urgent Update: Planning Committee 20 January 2022

Item 4

Telecommunications Base Station At Junction of Tonbridge road and Oakwood Road

21/506690/FULL

This application was called to Committee by Councillor Kimmance. One local resident and another Councillor has contacted the Council requesting that the application be withdrawn from this planning meeting agenda due to the site notice not expiring until 28th January 2022.

This was addressed within the committee report with the recommendation reading :

“The Head of Planning and Development be given delegated powers to grant planning permission subject to no further representations being received up to and including the 28th January 2022 which raise any new planning issues not already dealt with in the report”.

However, there is no principal objection to the report being withdrawn from the Committee agenda to await any further representations that may be received. The report will then be presented to the next available committee.

Recommendation:

Recommendation is that this application be withdrawn from the agenda.
