Subject: New street trading application

Hi , to whom it may concern, I have received an email from Kerry Watson of Licencing asking for my views on a new Street trading application from a gentleman who wishes to trade with an organic coffee stall in Week Street Maidstone outside of WHSmith's As you are all fully aware I already have my Street trading licence for Week Street for hotdogs & hot drinks from which I do already sell all types of coffee including organic , different types of hot teas including organic specialty's & hot chocolate.

Therefore I am going to object firstly on that reason but also regarding the siting of the stall outside WHSmith's , I'm afraid I cannot see where precisely it could go as there is no space & also we have Wendy's Burgers restaurant opening shortly on the corner of Week Street & Earl Street so I do believe that the hot drinks sector is very well catered for in that precise area of town. I have included some photos of Week Street taken on Saturday to illustrate what I mean about space on that location yours sincerely David Bolesworth
