

Warning
 Some scaling issues were noted on the original master drawing of Granada House which was provided, although these have now been corrected. Before proceeding with this proposed layout, all internal dimensions must be double checked onsite, as should the viability of the rear MOE route.

Proposed Ground Floor 1:100 Scale

Notes:
 Do not scale from this drawing unless printed at A3 size. Printer setting use "Actual Size" or "Custom Scale 100%". Do not use "Fit To Page"
