

Amendment to Appendix 1 – Response to Consultation on NHS 10 Year Plan

- 2.9 Even with proper funding in places to train the workforce of the future, there is an immediate problem of the current gaps in the workforce. In the 10 year plan, we would like to see how this will be addressed, *including the urgent expansion of UK training, incentives for people to return to the NHS, and measures to quell the exodus of NHS staff to countries that offer more benefits. We strongly disapprove of visa schemes and the like that encourage health workers to come to staff our health and social care institutions to the disadvantage of their countries of origin, unless this is robustly shown not to be the case.*
