## MAIDSTONE BOROUGH COUNCIL COUNTERPARTIES LIST 2012/13

## Sector's Suggested Credit Rating Methodology

Sector has recently implemented a new credit rating system that incorporates credit ratings from all three major rating agencies; Fitch, Moody's, and Standard & Poor's. The system uses all the available ratings and, as such, uses a four-way approach to produce a mathematically calculated, risk-weighted score that is then compared to pre-determined credit scoring bands. The system uses the Long term, Short term, Individual, and Support ratings to produce the credit score. Depending on which band the credit score falls between, determines the duration that Sector suggests lending to for that institution.

## Sector Colour Key.

As well as limits on the amount of funds that can be placed with individual counterparties, Sector would suggest imposing group limits. The group limit should be equal to the individual limit of one counterparty within the same group.
