PHYSICAL I	NFRASTRUCTURE						
Built Environmen	t						
Public realm improvements	Week Street	Town Centre	£2,000,000	MBC	CIL		North end from Fremlin Walk to Maidstone East. Possible S.106 opportunities when development comes forward at Maidstone East and/or Royal Mail Sorting Office
Public realm improvements	High Street Regeneration Stage 2	Town Centre	£2,000,000	MBC	Capital spending programme	2013-2016	High Street regeneration scheme phase 2 – from Pudding Lane to Fairmeadow
Public realm improvements	Improved linkages to riverside	Town Centre	£1,500,000	MBC	CIL		Primarily Earl St – to link with proposed new cycle/pedestrian footbridge from Earl Street to Street Peter but also relevant to St Faith's Street and lower High Street/Fairmeadow – where there is a need to improve the safety and attractiveness of the existing routes from the town centre to the riverside
	Total Estimated Cost	•	£5,500,000				All costs are estimates – schemes subject to change depending on priorities for town centre regeneration
Transport							, , , , , , , , , , , , , , , , , , ,
Walking	Pedestrian mobility/access Improvements	Town centre		MBC/KCC			Public realm improvements (see above) and upgrading of any junctions (see below) will have a positive impact on pedestrian mobility/access.
Walking	Access/safety improvements to/from high level bridge and riverside towpath	Town centre	£0,200,000	MBC/KCC	CIL (possible S.106 if Powerhub site on St Peter's Street is developed)	2016-2021	Improved linkage (public realm) from Maidstone East Train Station to Maidstone Barracks Train Station – also includes a new section of riverside towpath and improvements to existing riverside towpath from Scotney Garden to Whatman Park. £300k has already been secured through S.106 from development at Scotney Gardens
Walking/Cycling	Shared use	Town Centre	£2,000,000	MBC/KCC	CIL		Minimum cost estimate – depends on

	pedestrian/cycle footbridge linking Earl Street to St Peter's Street						priorities in the town centre. This scheme is highlighted in Town Centre Study, 2010
Walking/Cycling	Improving street signage and pedestrian way finding, removing footway clutter	Town centre/RSC	£0,200,000	ксс	CIL	Ongoing	To improve street legibility, safety and appearance
Cycling	Cycle network improvements	Town centre/ urban area	£0,750,000	KCC	LTP/CIL	2013-2016 2016-2021	Based on Cycle Strategy, which is part of the Integrated Transport Strategy
M20 J7 Improvements	Several schemes (Strategic Site Allocation)	Urban area	£3,300,000 (max estimate)	HA	CIL/\$.106	2016-2021	 Capacity improvements and provision of pedestrian crossing facilities at Bearsted roundabout (Bearsted Road/A249 Sittingbourne Road) and at New Cut roundabout (Bearsted Road/New Cut Road) - £0,700,000 Upgrading of Bearsted Road between Bearsted roundabout and New Cut roundabout to dual carriageway - £1,600,000 Traffic signalisation of the M20 J7 roundabout - £0,200,000 Provision of a subsidised shuttle bus to operate between the site and the town centre, via New Cut Road and Ashford Road - £TBC Bus priority measures on New Cut Road - £0,800,000 Traffic signal priority measures at the junction of New Cut Road and the A20 Ashford Road - included in bus priority cost estimate above.
M20 J8 Improvements	Several schemes (Strategic Site Allocation)	Rural area	£3,500,000	НА	CIL	2016-2021	 Ashford Rd/Penford Hill Jcn improvements – £0,560,000 Ashford Rd/Eyhorne St Jcn Improvements - £0,690,000 Ashford Rd/M20 link Rd

Public Transport	Romney Place bus lane	Town centre	£0,060,000	ксс	LTP/CIL	2012-2016	roundabout improvements - £0,182,000 • Ashford Rd/Willington St Jcn – £0,100,000 • M20 Jcn 8 westbound slip lane and merge improvements - £2,000,000 Scheme design has been drawn up and costed
Public Transport	A229 (south) A274 construction of dedicated bus lane – linked to strategic site in south east	Urban area – south east	£7,300,000	ксс	CIL/S.106/KCC	2016-2021	From Willington Street – Wheatsheaf Junction adjacent to existing carriageway
Highways Improvements	Bridge Gyratory Bypass	Town centre	£6,000,000	ксс	CIL/S.106/KCC capital spend	2016-2021	To improve traffic congestion in the town centre. The majority of funding for this scheme is expected to come from KCC block funding. See Integrated Transport Strategy
Highways Improvements	Several Schemes (Strategic Site Allocation)	South east	£3,590,000	KCC	CIL/S.106/HA/KCC	2016-2021	Improvements to capacity at junction Willington Street/Sutton Road - £0,820,000 New road between Sutton Road and Gore Court Road. Main link into Land North of Sutton Road and Bicknor Wood – Strategic Sites - £1,000,000 Widening of Gore Court Road between Bicknor Wood and Sutton Road - £1,000,000 New footway (north side Sutton Road) - £0,220,000 New roundabout on Sutton Road to provide access to Langley Park strategic site - £0,550,000
Highways Improvements	Several Schemes (Strategic Site Allocation)	North west	£8,594,000 (maximum estimate)	KCC	CIL/S.106/S.278/ T &M Borough Council/HA/KCC	2016-2021	 M20 Junction 5 signalisation - £0,700,000 Additional lane Coldharbour roundabout - £2,6000,000 Capacity improvements Hermitage Lane/London Road Junction -

Transport Infrastructure Improvements	Numerous schemes to be determined	RSCs	£0,500,000 broken down to £0,100,000 for each RSC as an initial guide	KCC	S.278/S.106/CIL	2016-2021	£0,800,000 20/20 roundabout capacity improvements - £1,300,000 One-way gyratory scheme - Fountain Lane/Tonbridge Road/Queens Road - Opening access to St Andrews Road and reorganisation of associated junctions to mitigate existing and proposed impacts on traffic flow and safety - £1,100,000 Footway improvements to Hermitage Lane (western side). Possible S.278 £0,200,000 Pedestrian crossing near Barming Rail Station - To mitigate against increased pedestrian flows and improve safe access to rail station - £0,094,000 Increase capacity of Barming Rail Station car park by 200 spaces - £1,800,000 Subject to detailed consultation between Parish Council's, MBC and KCC - Could include: traffic calming upgrading traffic signals, car parking, pedestrian and cycle links, interchange improvements Staplehurst
							Possible use of S.278 agreements, where developer provides infrastructure to KHS specification
	Transport (urban)		£35,494,000				3933333
			£0,500,000				
	Transport (RSC)		L0,300,000				

Sewerage	Engineering solution to increase capacity of sewer to accommodate growth	urban area and RSC	TBC	Southern Water	2016-	Significant off-site sewerage infrastructure will be required to serve the strategic locations in the Maidstone Urban Area. This is the case regardless of which sites are selected. The need for this infrastructure should be identified in policy terms in the Core Strategy RSCs New and/or improved local sewerage infrastructure may also be required to serve the sites in the RSCs. However, this does not preclude any of the sites from future development. Southern Water will assess the sites when the site options are refined, the scale of development at each site is defined, and the sites are published in a draft development plan document. If capacity is insufficient, development of the site can still go ahead provided it connects to the sewerage system at the nearest point of adequate capacity. Southern Water will look to the planning authority to formulate appropriate planning policies that will ensure
Wastewater	Increase capacity at	Urban area	£0 – costs	Southern Water		that this happens Delivery can be planned through the Ofwat
Treatment	Aylesford WwTW, and possibly Headcorn and Harrietsham	and RSCs	are covered by Southern Water			Periodic Review process, once the Core Strategy is adopted.
Broadband/ ICT	TBC	Urban area and RSCs	£TBC			Discussions held with IT. Possibility of focusing on 6 specific areas for broadband improvements.
	Utilities (urban)	1	£			, 5155
	Utilities (RSC)		£
